#### PROPOSED AMENDMENT TO ARTICLE VII

*SEC. 10. (a) No person who is found liable in a civil action for making libelous or slanderous statements against an opposing candidate during the course of an election campaign for any federal, statewide, Board of Equalization, or legislative office or for any county, city and county, city, district, or any other local elective office shall retain the seat to which he or she is elected, where it is established that the libel or slander was a major contributing cause in the defeat of an opposing candidate.*

*A libelous or slanderous statement shall be deemed to have been made by a person within the meaning of this section if that person actually made the statement or if the person actually or constructively assented to, authorized, or ratified the statement.*

*"Federal office," as used in this section means the office of United States Senator and Member of the House of Representatives; and to the extent that the provisions of this section do not conflict with any provision of federal law, it is intended that candidates seeking the office of United States Senator or Member of the House of Representatives comply with this section.*

*(b) In order to determine whether libelous or slanderous statements were a major contributing cause in the defeat of an opposing candidate, the trier of fact shall make a separate, distinct finding on that issue. If the trier of fact finds that libel or slander was a major contributing cause in the defeat of an opposing candidate and that the libelous or slanderous statement was made with knowledge that it was false or with reckless disregard of whether it was false or true, the person holding office shall be disqualified from or shall forfeit that office as provided in subdivision (d). The findings required by this section shall be in writing and shall be incorporated as part of the judgment.*

*(c) In a case where a person is disqualified from holding office or is required to forfeit an office under subdivisions (a) and (b), that disqualification or forfeiture shall create a vacancy in office, which vacancy shall be filled in the manner provided by law for the filling of a vacancy in that particular office.*

*(d) Once the judgment of liability is entered by the trial court and the time for filing a notice of appeal has expired, or all possibility of direct attack in the courts of this state has been finally exhausted, the person shall be disqualified from or shall forfeit the office involved in that election and shall have no authority to exercise the powers or perform the duties of the office.*

*(e) This section shall apply to libelous or slanderous statements made on or after the effective date of this section.*

**SEC. SEC. 17.** The State shall not in any manner loan its credit, nor shall it subscribe to, or be interested in the stock of any company, association, or corporation, except that the state and each political subdivision, district, municipality, and public agency thereof is hereby authorized to acquire and hold shares of the capital stock of any mutual water company or corporation when ~~such~~ the stock is so acquired or held for the purpose of furnishing a supply of water for public, municipal or governmental purposes; and ~~such~~ the holding of ~~such~~ the stock shall entitle ~~such~~ the holder thereof to all of the rights, powers and privileges, and shall subject ~~such~~ the holder to the obligations and liabilities conferred or imposed by law upon other holders of stock in the mutual water company or corporation in which ~~such~~ the stock is so held.

Notwithstanding provisions to the contrary in this section and Section 6 of Article XVI, the Legislature may authorize the investment of moneys of any public pension or retirement fund, not to exceed 25 percent of the assets of such fund determined on the basis of cost in the common stock or shares and not to exceed 5 percent of assets in preferred stock or shares of any corporation; provided: system, subject to all of the following:

*(b) The fiduciary of the public pension or retirement system shall discharge his or her duties with respect to the system solely in the interest of, and for the exclusive purposes of providing benefits to, participants and their beneficiaries, minimizing employer contributions thereto, and defraying reasonable expenses of administering the system.*

*(c) The fiduciary of the public pension or retirement system shall discharge his or her duties with respect to the system with the care, skill, prudence, and diligence under the circumstances then prevailing that a prudent person acting in a like capacity and familiar with these matters would use in the conduct of an enterprise of a like character and with like aims.*

## **PROPOSED AMENDMENT TO ARTICLE XIII A, SECTION 2**

**Section SEC. 2.** (a) The full cash value means the county assessor's valuation of real property as shown on the 1975-76 tax bill under "full cash value" or, thereafter, the appraised value of real property when purchased, newly constructed, or a change in ownership has occurred after the 1975 assessment. All real property not already assessed up to the 1975-76 full cash value may be reassessed to reflect that valuation. For purposes of this section, the term "newly constructed" shall not include real property which is reconstructed after a disaster, as declared by the Governor, where the fair market value of such real property, as reconstructed, is comparable to its fair market value prior to the disaster. *Also, the term "newly constructed" shall not include the portion of reconstruction or improvement to a structure, constructed of unreinforced masonry bearing wall construction, necessary to comply with any local ordinance relating to seismic safety during the first 15 years following that reconstruction or improvement.*

(b) The full cash value base may reflect from year to year the inflationary rate not to exceed 2 percent for any given year or reduction as shown in the consumer price index or comparable data for the area under taxing jurisdiction, or may be reduced to reflect substantial damage, destruction or other factors causing a decline in value.

(c) For purposes of subdivision (a), the Legislature may provide that the term "newly constructed" shall not include the construction or addition of any active solar energy system.

(d) For purposes of this section, the term "change in ownership" shall not include the acquisition of real property as a replacement for comparable property if the person acquiring the real property has been displaced from the property replaced by eminent domain proceedings, by acquisition by a public entity, or governmental action which has resulted in a judgment of inverse condemnation.

The real property acquired shall be deemed comparable to the property replaced if it is similar in size, utility, and function, or if it conforms to state regulations defined by the Legislature governing the relocation of persons displaced by governmental actions. The provisions of this subdivision shall be applied to any property acquired after March 1, 1975, but shall affect only those assessments of that property which occur after the provisions of this subdivision take effect.

Second—That Chapter 3 (commencing with Section 9900) is added to Part 1 of Division 2 of Title 2 of the Government Code, to read:

Chapter 8  
LEGISLATIVE REFORM

Article 1  
GENERAL

§ 9900. *Short title*

*This chapter shall be known and may be cited as the "Legislative Reform Act of 1983."*

§ 9901. *Findings and declaration.*

*The people find and declare:*

(a) *All citizens of the State are entitled to full and effective representation by their elected representatives.*

(b) *In recent years spending for the support of the Legislature has increased at a rate greatly exceeding the growth in spending for most other state functions, severely damaging the image and credibility of the Legislature with the people of California.*

(c) *In the absence of reasonable oversight and constraints, powerful individual lawmakers exercise virtually exclusive control over legislative spending, depriving the people of California and other lawmakers of an effective means of discovering how these monies are being spent or of judging the propriety of those expenditures.*

(d) *The distribution of funding, staff, and informational resources in the Legislature according to predominantly partisan criteria has greatly hindered the ability of minority party representatives to provide effective legislative representation.*

(e) *The concentration of power in the office of Speaker of the Assembly and, to a lesser extent, in the office of President pro Tempore of the Senate, has created a system of patronage and punishment through which a single legislator, accountable only to the people of a single legislative district, is able to wield greatly disproportionate influence over the laws of California.*

(f) *The growth in abusive voting practices in the Legislature and its committees has worked to deprive the people of their right to monitor the performance of their legislative representatives and respond accordingly.*

(g) *The Legislature's refusal to adhere to statutory and traditional notice and publication requirements for committee hearings and reports of conference committees has deprived the public of its right to make effective input into the legislative process.*

§ 9902. *Purposes of chapter*

*The people enact this chapter to accomplish the following purposes:*

(a) *Appropriations for the support of the Legislature should be reduced by thirty percent from 1983-84 budgeted levels and future growth in legislative spending should be limited to a rate commensurate with the growth of state government spending in general.*

(b) *Control over legislative spending should be removed from the hands of powerful individual lawmakers and there should be established a system of independent monitoring of legislative spending practices and increased disclosure of legislative spending levels.*

(c) *All Members of the Legislature, regardless of partisan affiliation, should be provided with equal opportunity and resources to effectively serve their constituents. The minority party or parties in each house of the Legislature should be provided with resources, funding, and a policy-making voice proportionate with their numbers in that house in order to achieve the end of fair and effective representation for all.*

(d) *No single Member of the Legislature should be given extraordinary power to influence the course of legislation nor the power to punish other members for the good faith exercise of their free will and judgement on behalf of their constituents.*

(e) *No system of legislative voting which serves to deny or obscure the people's right to know how their representatives vote should be permitted in the Legislature.*

(f) *The people have the right to have notice of, see, and express their feelings on all proposed changes in the laws, including those changes proposed in reports of conference committees, and any knowing and willful violation of these rights should be a criminal offense and the laws passed in violation thereof invalidated.*

**§ 9903. Construction of chapter**

*This chapter shall be liberally construed to accomplish its purposes.*

**§ 9904. Amendment or repeal of chapter; procedures**

*This chapter may be amended only by the procedures set forth in this section. If any portion of subsection (a) is declared invalid, then subsection (b) shall be the exclusive means of amending or repealing this chapter.*

(a) *This chapter may be amended only to further its purposes and only by statute, passed in each house by rollcall vote entered in the journal, two-thirds of the membership concurring and signed by the Governor, if at least 20 days prior to passage in each house the bill in its final form has been printed and made available for public inspection.*

(b) *This chapter may be amended or repealed by a statute that becomes effective only when approved by the electors.*

**§ 9905. Imposition of additional requirements; law governing**

*Nothing in this chapter shall prevent the Legislature from imposing additional requirements on itself if the requirements do not conflict with the purposes of this chapter. If any act of the Legislature conflicts with the provisions of this chapter, this chapter shall prevail*

**§ 9906. Severability**

*If any provision of this chapter, or the application of any such provision to any person or circumstances, shall be held invalid, the remainder of this chapter to the extent it can be given effect, or the application of such provision to persons or circumstances other than those as to which it is held invalid, shall not be affected thereby, and to this end the provisions of this chapter are severable.*

**§ 9907. Effective date**

*This chapter shall go into effect immediately. Notwithstanding any other provision of law, all changes in the structure or operation of the Legislature required by this chapter, including but not limited to the adoption of rules in accordance with Section 9920 and 9921, the reorganization of the Senate Committee on Rules, the Assembly Committee on Rules, the Joint Rules Committee, and all standing, special, select, and joint committees of the Legislature, including the reallocation of staff resources, in accordance with Sections 9911, 9915, 9917, 9922, 9923, and 9924, and the reduction in funding for support of the Legislature pursuant to Section 9934, shall be implemented upon the first meeting of the Legislature in regular or special session subsequent to enactment of this chapter.*

*Article 2*  
**LEGISLATIVE POWERS AND DUTIES**

**§ 9910. Speaker of the Assembly**

*The Speaker is responsible for the efficient conduct of the legislative and administrative affairs of the Assembly.*

*The Speaker shall be elected upon organization of the Assembly at the beginning of each regular or special session and shall serve until adjournment sine die of that session, unless removed pursuant to Section 9173 and a successor chosen pursuant to the rules of the Assembly.*

**§ 9911. Assembly Committee on Rules**

The Assembly Committee on Rules has a continuing existence and may meet and act during sessions of the Legislature or any recess thereof and in the interim periods between sessions. *(3) To have general direction over the Assembly Chamber and rooms set aside for the use of the Assembly, including the rooms for use by Members as private offices.*

*(4) To allocate all funds, staffing, and other resources necessary for the effective operation of the Assembly. Except as provided otherwise by affirmative recorded vote of two thirds of the total membership of the committee, all funds, staffing, and resources shall be allocated proportionately by party.*

*(5) To exercise such other powers and perform such duties as may be provided by statute enacted in accordance with the provisions of this chapter, or in the rules of the Assembly.*

*(b) Notwithstanding any other provision of law or rule, neither the Chairman nor any member or agent of the Assembly Committee on Rules shall have the power to perform any action on behalf of the committee, including but not limited to the making of contracts, the payment of claims, the allocation of office space, or the hiring or dismissal of staff, without the express authorization of two thirds of the total membership of the committee. Such authorization shall apply only to the matter or matters under immediate consideration.*

**§ 9913. Appointments by the speaker; confirmation by Assembly Committee on Rules**

*Notwithstanding any other provision of law, all statutory appointments delegated to the Speaker of the Assembly are subject to confirmation by the Assembly Committee on Rules, two thirds of the membership thereof concurring.*

**§ 9914. President pro tempore of the senate**

*The President pro Tempore is responsible for the efficient conduct of the legislative and administrative affairs of the Senate.*

*The President pro Tempore shall be elected upon organization of the Senate at the beginning of each regular or special session and shall serve until adjournment sine die of that session, unless removed pursuant to Section 9173 and a successor chosen pursuant to the rules of the Senate.*

**§ 9915. Senate Committee on Rules**

*4451. It is found and declared that:*

*(a) While the County Jail Capital Expenditure Bond Act of 1981 has helped eliminate many of the critically overcrowded conditions found in the 164 county jail facilities in the state, many problems remain.*

*(b) Numerous county jails throughout California are dilapidated and overcrowded.*

*(c) Capital improvements are necessary to protect life and safety of the persons confined or employed in jail facilities and to upgrade the health and sanitary conditions of those facilities.*

*(d) County jails are threatened with closure or the imposition of court supervision if health and safety deficiencies are not corrected immediately.*

*(e) Due to fiscal constraints associated with the loss of local property tax revenues, counties are unable to finance the construction of adequate jail facilities.*

*(f) Imposition of limits on taxing powers of local agencies, imposed by Proposition 13 and other measures, has severely limited the ability of local jurisdictions to raise funds for jail construction or renovation, though the need for such facilities is increasing.*

4471. *All proceeds from the sale of bonds, except those derived from premiums and accrued interest, shall be available for the purpose provided in Section 4465 but shall not be available for transfer to the General Fund to pay principal and interest on bonds. 18. **California Park and Recreational Facilities Act of 1984.** (Statutes 1984, Chapter 5, AB 2099)

[Approved by electors June 5, 1984.]

SECTION 1. Chapter 1.691 (commencing with Section 5096.225) is added to Division 5 of the Public Resources Code, to read:

**CHAPTER 1.691. CALIFORNIA PARK AND  
RECREATIONAL FACILITIES ACT OF 1984**

**Article 1. General Provisions**

**5096.225.** *This chapter shall be known and may be cited as the California Park and Recreational Facilities Act of 1984.*

**5096.226.** *The Legislature hereby finds and declares that:*

(a) *It is the responsibility of this state to provide and to encourage the provision of recreational opportunities and facilities for citizens of California*

(b) *It is the policy of the state to preserve, protect, and, where possible, restore coastal resources which are of significant recreational or environmental importance and, through proper planning and development, to make them available for the enjoyment of present and future generations of persons of all income levels, all ages, and all social groups.*

(c) *When there is proper planning and development, parks, beaches, recreation areas and recreational facilities, and historical resources preservation projects contribute not only to a healthy physical and moral environment, but also contribute to the economic betterment of the state, and, therefore, it is in the public interest for the state to acquire, develop, or restore areas for recreation, conservation, or preservation and to aid local governments of the state in acquiring, developing, or restoring those areas as will contribute to the realization of the policy declared in this chapter.*

**5096.227.** *The Legislature further finds and declares that:*

(a) *The demand for parks, beaches, recreation areas and recreational facilities, and historical resources preservation projects in California is far greater than what is presently available, with the number of people who cannot be accommodated at the area of their choice or any comparable area increasing rapidly. Further, the development of parks, beaches, recreation areas and recreational facilities, and historical resources preservation projects has not proceeded rapidly enough to provide for their full utilization by the public.*

(b) *The demand for parks, beaches, recreation areas and recreational facilities, and historical resources preservation projects in the urban areas of our state is even greater since over 90 percent of the present population of California reside in urban areas; there continues to be a serious deficiency in open space and recreation areas in the metropolitan areas of the state; and less urban land is available, costs are escalating, and competition for land is increasing.*

(c) *There is a high concentration of urban social problems in California's major metropolitan areas which can be partially alleviated by increased recreational opportunities.*

(d) *There is a particularly high demand for recreational use at reservoirs and lakes within the state park system and recreational facilities at nonstate water facilities are particularly in need of expansion, rehabilitation, or restoration.*

(e) California's coast provides a great variety of recreational opportunities not found at inland sites; it is heavily used because the state's major urban areas lie, and 85 percent of the state's population lives, within 30 miles of the Pacific Ocean; a shortage of facilities for almost every popular coastal recreational activity exists; and there will be a continuing high demand for popular coastal activities such as fishing, swimming, sightseeing, general beach use, camping, and day use. Funding for the development of a number of key coastal sites is critical at this time, particularly in metropolitan areas where both the demand for and the deficiency of recreational facilities is greatest.

(f) Cities, counties, and districts must exercise constant vigilance to see that the parks, beaches, recreation areas and recreational facilities, and historical resources they now have are not lost to other uses; they should acquire additional lands as those lands become available; they should take steps to improve the facilities they now have; and they should adequately operate and maintain their existing and proposed systems for the enjoyment of present and future generations of persons of all income levels, all ages, and all social groups.

(g) Past and current funding programs have not and cannot meet present deficiencies. This condition has become more acute as a result of restrictions on local governmental revenues. There is a need to give priority to further recreational development that can serve expanding recreational needs, produce operating revenues, and in some cases stimulate private sector jobs. In view of the present revenue shortages, and the increasing recreational demands, such a priority is most important at this time.

(h) In view of the foregoing, the Legislature declares that an aggressive, coordinated, funded program for meeting existing and projected recreational demands must be implemented without delay.

5096.228. As used in this chapter, the following terms shall have the following meanings:

(a) "Coastal resources" means those land and water areas within the coastal zone, as defined in subdivisions (a) and (b) of Section 31006, and within the Santa Monica Mountains Zone, as described in Section 33105, which are suitable for public park, beach, or recreational purposes, including, but not limited to, areas of historical significance and areas of open space that complement park, beach, or recreational areas, or which are suitable for the preservation of coastal resource values.

(b) "District" means any district authorized to provide park, recreational, or open-space services, or a combination of those services, except a school district.

(c) "Fund" means the Parklands Fund of 1984.

(d) "Historical resource" includes, but is not limited to, any building, structure, site, area, or place which is historically or archaeologically significant, or is significant in the architectural, engineering, scientific, economic, agricultural, educational, social, political, military, or cultural annals of California.

(e) "Historical resources preservation project" is a project designed to preserve an historical resource which is either listed in the National Register of Historic Places or is registered as either a state historical landmark or point of historical interest pursuant to Section 5021.

(f) "Inland resources" means those land and water areas not included in the definition of coastal resources.

(g) "Program" means the Parklands Acquisition and Development Program of 1984 established by this chapter.

(h) "Stewardship" means the development and implementation of major programs for the protection, rehabilitation, restoration, and enhancement of the basic natural systems and outstanding scenic features of the state park system. It does not mean the maintenance or alteration of facilities, developments, or of any

physical installations whose original purpose was not the protection of natural and scenic resources.

(i) "Sacramento-San Joaquin Delta" means those land and water areas defined in Section 12200 of the Water Code.

Article 2. Parklands Acquisition and Development Program

5096.231. All money deposited in the Parklands Fund of 1984 shall be available for appropriation in the manner set forth in Section 5096.260 for the purposes set forth below in amounts not to exceed the following:

5096.241. (b) Provide for the development of existing units with the minimum facilities necessary for accessibility, use, and interpretation.

(c) Rehabilitate facilities at existing units that will provide for more efficient management and reduced operational costs.

(d) Minimize dependence on motor vehicles and reduce other forms of energy and water consumption through appropriately designed facilities.

(e) Acquire those lands which will lead to the completion of ongoing projects.

5096.242. (a) Any Member of the Legislature, the State Park and Recreation

*Commission, the California Coastal Commission, or the Secretary of the Resources Agency may nominate any project to be funded under this article for study by the Department of Parks and Recreation. *(d) Every application for a grant shall comply with the provisions of the California Environmental Quality Act (Division 13 (commencing with Section 21000)).*

*(e) Funds granted pursuant to Section 5096.232 may be expended for development, rehabilitation, or restoration only on lands owned by, or subject to a lease or other interest held by, the applicant. If those lands are not owned by the applicant, the applicant shall first demonstrate to the satisfaction of the State Coastal Conservancy that the development, rehabilitation, or restoration will provide benefits commensurate with the type and duration of interest in land held by the applicant.*

(f) No state grant funds authorized under Section 5096.232 may be disbursed until the applicant agrees that any property acquired or developed with the funds shall be used by the applicant only for the purpose for which the funds were requested and that no other use, sale, or other disposition of the property shall be permitted except by specific act of the Legislature. If the use of the property is changed to one other than permitted under the category in Section 5096.232 from which the funds were appropriated, or the property is sold or otherwise disposed of, an amount equal to the amount of the grant or equal to the fair market value of the real property, or portion thereof, acquired or developed with the grant, whichever is greater, shall be used by the local public agency or the nonprofit organization for a purpose authorized in that category or shall be reimbursed to the State Coastal Conservancy Fund of 1984 for a use authorized in that category.

A copy of the agreement shall be filed with the county clerk in the county in which the property lies. The arrangement shall be compatible with the operation of the area by the state, as determined by the appropriate director or officer.

5096.247. All real property acquired pursuant to this chapter shall be acquired in compliance with the provisions of Chapter 16 (commencing with Section 7260) of Division 7 of Title 1 of the Government Code. 5096.248. For the purposes of this chapter, acquisition may include gifts, purchases, leases, easements, the exercise of eminent domain if expressly authorized, the transfer or exchange of property for other property of like value, and purchases of development rights and other interests.

5096.249. All grants, gifts, devises, or bequests to the state, conditional or unconditional, for park, conservation, recreation, or other purposes for which real property may be acquired or developed pursuant to this chapter, may be accepted and received on behalf of the state by the appropriate departmental director with the approval of the Director of Finance. The grants, gifts, devises, or bequests shall be available, when appropriated by the Legislature, for expenditure for the purposes specified in Sections 5096.231 and 5096.232.

5096.250. Real property acquired by the state shall consist predominantly of open or natural lands, including lands under water capable of being utilized for multiple recreational purposes, and lands necessary for the preservation of coastal or historical resources. The State Lands Commission shall, within three months of submittal, review the proposed acquisition, make a determination as to the state's existing or potential interest in the lands, and report its findings to the person making the submittal and to the Department of General Services.

(b) No provision of this chapter shall be construed as authorizing the condemnation of state lands.

5096.252. The Legislature may appropriate not more than five million dollars (\$5,000,000) to the Santa Monica Mountains Conservancy for the purposes set forth in Division 23 (commencing with Section 33000) from the money available in subparagraph (A) of category (2) of subdivision (b) of Section 5096.231.

This section shall not be operative if Senate Bill 512 of the 1983-84 Regular Session of the Legislature is approved by the voters.

#### Article 7. Fiscal Provisions

5096.255. Bonds in the total amount of three hundred seventy million dollars (\$370,000,000), or so much thereof as is necessary, may be issued and sold to provide a fund to be used for carrying out the purposes expressed in this chapter and to be used to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code. The bonds shall, when sold, be and constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal and interest on the bonds as the principal and interest become due and payable.

5096.256. There shall be collected each year and in the same manner and at the same time as other state revenue is collected such a sum in addition to the ordinary revenues of the state as shall be required to pay the principal and interest on the bonds maturing each year, and it is hereby made the duty of all officers charged by law with any duty in regard to the collection of the revenue to do and perform each and every act which shall be necessary to collect that additional sum.

5096.257. There is hereby appropriated from the General Fund in the State

*Treasury for the purpose of this chapter, such an amount as will equal the following:*

(a) *Such sum annually as will be necessary to pay the principal and interest on bonds issued and sold pursuant to the provisions of this chapter, as principal and interest become due and payable.*

(b) *Such sum as is necessary to carry out the provisions of Section 5096.259, which sum is appropriated without regard to fiscal years.*

*5096.258. The proceeds of bonds issued and sold pursuant to this chapter shall be deposited in the Parklands Fund of 1984 or the State Coastal Conservancy Fund of 1984, which are hereby created. The money in the Parklands Fund of 1984 may be expended only for the purposes specified in this chapter and only pursuant to appropriation by the Legislature in the manner prescribed in this chapter. The money in the State Coastal Conservancy Fund of 1984 may be expended only for the purposes specified in Section 5096.232 and only pursuant to appropriation by the Legislature in the manner prescribed in this chapter.*

*5096.259. For the purposes of carrying out the provisions of this article, the Director of Finance may by executive order authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds which have been authorized to be sold for the purpose of carrying out this chapter. Any moneys deposited in the fund for expenditure for the purposes of subdivision (c) of Section 5096.231 shall be appropriated to the Department of Parks and Recreation in the manner provided in Section 5096.260. Any amounts withdrawn shall be deposited in the fund. Any moneys made available under this section shall be returned to the General Fund from moneys received from the sale of bonds for the purpose of carrying out the provisions of this chapter.*

*5096.260. (a) Except for proposed appropriations under Section 5096.232, proposed appropriations for the program shall be included in a section in the Budget Bill for the 1984–85 fiscal year and each succeeding fiscal year for consideration by the Legislature and shall bear the caption "Parklands Acquisition and Development Program of 1984." The section shall contain separate items for each project, each class of projects, or each element of the program for which an appropriation is made.*

*(b) All proposed appropriations for the program under Section 5096.232 shall be included in a section in the Budget Bill for the 1984–85 fiscal year and each succeeding fiscal year for consideration by the Legislature and shall bear the caption "State Coastal Conservancy." The section shall contain separate items for each project, each class of projects, or each element of the program for which an appropriation is made*

*(c) All appropriations shall be subject to all limitations enacted in the Budget Act and to all fiscal procedures prescribed by law with respect to the expenditure of state funds unless expressly exempted from those laws by a statute enacted by the Legislature. Those sections shall contain proposed appropriations only for the program elements and classes of projects contemplated by this chapter, and no funds derived from the bonds authorized by this chapter may be expended pursuant to an appropriation not contained in those sections of the Budget Act.*

*5096.261. The bonds authorized by this chapter shall be prepared, executed, issued, sold, paid, and redeemed as provided in the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code), and all of the provisions of that law are applicable to the bonds and to this chapter and are hereby incorporated in this chapter as though set forth in full herein.*

*5096.262. For the purpose of authorizing the issuance and sale, pursuant to the State General Obligation Bond Law, of the bonds authorized by this chapter, the Parklands Program Finance Committee is hereby created. The committee consists*

of the Governor, the Controller, the Director of Finance, the Treasurer, and the Secretary of the Resources Agency. For the purposes of this chapter, the Parklands Program Finance Committee shall be "the committee" as that term is used in the State General Obligation Bond Law, and the Treasurer shall serve as chairman of the committee. The Secretary of the Resources Agency is hereby designated as "the board" for the purposes of the State General Obligation Bond Law.

5096.263. As used in this chapter, and for the purposes of the State General Obligation Bond Law, "state grant" or "state grant moneys" means moneys received by the state from the sale of bonds authorized by this chapter which are available for grants to counties, cities, districts, local public agencies, and nonprofit organizations.

5096.264. All money deposited in the fund or the State Coastal Conservancy Fund of 1984 which is derived from premium and accrued interest on bonds sold shall be reserved in those depositories and shall be available for transfer to the General Fund as a credit to expenditures for bond interest.

5096.265. Commencing with the Budget Bill for the 1993-94 fiscal year, the balances remaining in the fund and the State Coastal Conservancy Fund of 1984 may be appropriated by the Legislature for expenditure, without regard to the maximum amounts allocated to each element of the program, for any or all elements of the program specified in Sections 5096.231 and 5096.232, or any class or classes of projects within those elements, that the Legislature deems to be of the highest priority.

5096.266. The Legislature hereby finds and declares that, inasmuch as the proceeds from the sale of bonds authorized by this chapter are not "proceeds of taxes" as that term is used in Article XIII B of the California Constitution, the disbursement of these proceeds is not subject to the limitations imposed by that article.

5096.267. 19. Fish and Wildlife Habitat Enhancement Act of 1984. (Statutes 1984, Chapter 6, SB 512)

[Approved by electors June 5, 1984 ]

SECTION 1. Chapter 7 (commencing with Section 2600) is added to Division 3 of the Fish and Game Code, to read:

**CHAPTER 7. FISH AND WILDLIFE HABITAT  
ENHANCEMENT ACT OF 1984**

**Article 1. General Provisions**

2600. This chapter shall be known and may be cited as the Fish and Wildlife Habitat Enhancement Act of 1984.

2601. (a) The fundamental requirement for healthy, vigorous populations of fish and wildlife is habitat. Without adequate habitat, efforts to conserve and manage fish and wildlife resources will have limited success.

(b) Assuring adequate habitat, with the resulting increase in the abundance of fish and wildlife, confers substantial benefits on the people of California through the opportunities afforded for the use, enjoyment, and appreciation of fish and wildlife resources, the perpetuation of species of fish and wildlife for their intrinsic

and ecological values, and the enhancement of economic activities based on these resources.

(c) Accordingly, the purpose of this chapter is to provide the financial means to correct the most severe deficiencies in fish and wildlife habitat currently found in California through a program of acquisition, enhancement, and development of habitat areas that are most in need of proper conservation and management.

2602. As used in this chapter, the following terms have the following meanings:

(a) "Acquisition" means the acquisition of any interest in real property.

(b) "Coastal zone" means the coastal zone as defined and mapped pursuant to Section 30103 of the Public Resources Code.

(c) "Local public agency" means a city, county, city and county, regional park or open-space district, recreation and park district, resource conservation district, association of governments, or joint powers agency whose jurisdiction is wholly or partially within the coastal zone or in the San Francisco Bay region.

## Article 2 Habitat Enhancement Program

(a) Forty million dollars (\$40,000,000) for expenditure by the Wildlife Conservation Board pursuant to the Wildlife Conservation Law of 1947 for the acquisition, enhancement, or development, or any combination thereof, of lands located outside the coastal zone for the preservation of resources and the management of wildlife and fisheries, in accordance with the following schedule:

(1) Thirty million dollars (\$30,000,000) for the acquisition, enhancement, or development, or any combination thereof, of lands for habitat for wildfowl and other wildlife benefitted by a marsh or aquatic environment.

(2) Ten million dollars (\$10,000,000) for the restoration of waterways for the management of fisheries and the enhancement or development, or both, of habitat for other wildlife.

(b) Five million dollars (\$5,000,000) for expenditure by the Wildlife Conservation Board pursuant to the Wildlife Conservation Law of 1947 for the acquisition, enhancement, or development, or any combination thereof, of lands for habitat for rare, endangered, and fully protected species.

(c) Thirty million dollars (\$30,000,000) for expenditure by the State Coastal Conservancy for the acquisition, enhancement, or development, or any combination thereof, of marshlands and associated and adjacent lands and the development of associated facilities and for grants to local public agencies for those purposes, in accordance with the following schedule:

(1) Twenty million dollars (\$20,000,000) for grants by the conservancy to local public agencies in the coastal zone and in the San Francisco Bay region for the acquisition, enhancement, or development, or any combination thereof, of marshlands and adjacent lands for habitat for wildlife benefitted by a marsh or aquatic environment and the improvement of drainage into wetlands to control or retard erosion and sedimentation, and biologically and hydrologically associated upland habitat areas. Of the amount made available pursuant to this paragraph, not less than five million dollars (\$5,000,000) shall be available for grants for projects in the San Francisco Bay region.

marsh or aquatic environment.

2621. An annual amount, not to exceed one hundred thousand dollars (\$100,000), may be appropriated from the funds available pursuant to subdivisions (a) and (d) of Section 2620 in the 1984-85 through 1989-90 fiscal years, in a particular amount to be determined in each annual appropriation, to the Wildlife Conservation Board for expenditure for costs incurred by the board in administering this chapter, as provided in this section. The board shall augment, as needed, any amount appropriated pursuant to this section with an appropriation from any other funds available to it. This chapter is not intended, nor shall it be construed, to authorize the Wildlife Conservation Board or the department to establish any additional personnel positions.

2622. An annual amount, not to exceed two hundred fifty thousand dollars (\$250,000), may be appropriated from the funds available pursuant to subdivision (c) of Section 2620 in the 1984-85 through 1989-90 fiscal years, in a particular amount to be determined in each annual appropriation, to the State Coastal Conservancy for expenditure for costs incurred by the conservancy in administering this chapter.

2623. (a) None of the funds appropriated pursuant to this chapter may be encumbered for any purpose described in Section 1353.

(b) Notwithstanding Sections 31105 and 31106 of the Public Resources Code, the State Coastal Conservancy and the State Public Works Board may not make any acquisition pursuant to the power of eminent domain with any funds appropriated pursuant to this chapter.

2624. Funds available pursuant to subdivision (b) of Section 2620 may be encumbered only for lands constituting habitat that is subject to destruction, drastic modification, or severe curtailment of habitat values.

2625. No acquisition shall be undertaken with funds appropriated pursuant to Section 2620 and no grant of funds appropriated pursuant to subdivision (c) of Section 2620 shall be encumbered until all practical alternatives to direct purchase of the full fee title have been considered. The Wildlife Conservation Board and the State Coastal Conservancy shall establish a procedure to assure consideration of alternatives to direct purchase. These alternatives shall include, but not be limited to, the following

(a) Opportunities for obtaining the land through exchanges of other publicly held lands.

(b) Tax considerations that may pertain to the contemplated transaction.

(c) Utilization of transfers of densities and density bonuses and other available land use controls.

(b) *The conservancy shall not disburse any grant until the applicant, or any other appropriate managing or operating entity, has entered into an agreement with the conservancy or its designee, or both, sufficient to assure that the property acquired, enhanced, or developed, and any improvements thereon, shall be managed and operated for the purpose for which the grant was requested. No use of the property that is incompatible with that purpose shall ever be permitted.*

(d) *Every application for a grant shall comply with the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code).*

(e) *Notwithstanding Sections 31207 and 31257 of the Public Resources Code, funds granted pursuant to subdivision (c) of Section 2620 may be encumbered only for the acquisition, enhancement, or development, or any combination thereof, and the costs incurred by the recipient in planning, preparation of construction documents, fiscal management and accounting, and supervision of construction in connection with the project for which the grant was made. All expenditures made by a recipient of a grant shall be subject to being audited.*

(f) *Funds granted pursuant to subdivision (c) of Section 2620 shall be available for encumbrance by the recipient for a period of three years after the date when the grant became effective.*

### Article 3. Fiscal Provisions

2640. *Bonds in the total amount of eighty-five million dollars (\$85,000,000), or so much thereof as is necessary, may be issued and sold to provide a fund to be used for carrying out the purposes expressed in this chapter and to be used to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code. The bonds shall, when sold, be and constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal and interest on the bonds as the principal and interest become due and payable.*

2641. *There shall be collected each year and in the same manner and at the same time as other state revenue is collected such a sum in addition to the ordinary revenues of the state as shall be required to pay the principal and interest on the bonds maturing each year, and it is hereby made the duty of all officers charged by law with any duty in regard to the collection of the revenue to do and perform each and every act which shall be necessary to collect that additional sum.*

2642. *There is hereby appropriated from the General Fund in the State Treasury for the purpose of this chapter, such an amount as will equal the following:*

(a) *Such sum annually as will be necessary to pay the principal and interest on bonds issued and sold pursuant to the provisions of this chapter, as principal and interest become due and payable.*

(b) *Such sum as is necessary to carry out the provisions of Section 2644, which sum is appropriated without regard to fiscal years.*

2643. *The proceeds of bonds issued and sold pursuant to this chapter shall be deposited in the Fish and Wildlife Habitat Enhancement Fund, which is hereby created. The money in the fund may be expended only for the purposes specified in this chapter and only pursuant to appropriation by the Legislature in the manner prescribed in this chapter.*

2644. *For the purposes of carrying out the provisions of this article, the Director of Finance may, pursuant to appropriate authority in each annual Budget Act, authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds which have been authorized to be sold for*

the purpose of carrying out this chapter. Any amounts withdrawn shall be deposited in the fund. Any moneys made available under this section shall be returned to the General Fund from moneys received from the sale of bonds for the purpose of carrying out the provisions of this chapter. The withdrawals from the General Fund shall be returned to the General Fund with interest at the rate which would otherwise have been earned by those sums in the Pooled Money Investment Fund.

2645. All proposed appropriations for the program shall be included in a section in the Budget Bill for the 1984-85 fiscal year and each succeeding fiscal year for consideration by the Legislature and shall bear the caption "Fish and Wildlife Habitat Enhancement Program." The section shall contain separate items for each project, each class of projects, or each element of the program for which an appropriation is made.

All appropriations shall be subject to all limitations enacted in the Budget Act and to all fiscal procedures prescribed by law with respect to the expenditure of state funds unless expressly exempted from such laws by a statute enacted by the Legislature. The section in the Budget Act shall contain proposed appropriations only for the program elements and classes of projects contemplated by this chapter, and no funds derived from the bonds authorized by this chapter may be expended pursuant to an appropriation not contained in that section of the Budget Act.

Not later than October 1, 1985, and not later than October 1 of each year thereafter, the State Coastal Conservancy shall submit to the chairman and vice chairman of the Joint Legislative Budget Committee and the fiscal committees of the Legislature a report on all projects proposed to be undertaken pursuant to appropriations made for the fiscal year commencing the following July 1. The conservancy shall, as needed, make subsequent reports reflecting any significant changes from the information submitted in the October 1 report. The conservancy shall wait 30 days before encumbering funds for any project included in any subsequent report.

2646. The bonds authorized by this chapter shall be prepared, executed, issued, sold, paid, and redeemed as provided in the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3, Division 4, Title 2 of the Government Code), and all of the provisions of that law are applicable to the bonds and to this chapter and are hereby incorporated in this chapter as though set forth in full herein.

2647. Solely for the purpose of authorizing the issuance and sale, pursuant to the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 1 of Division 4 of Title 2 of the Government Code), of the bonds authorized by this chapter, the Wildlife Habitat Enhancement Program Finance Committee is hereby created. The committee consists of the Controller, the Director of Finance, and the Treasurer. For purposes of this chapter, this committee is "the committee" as that term is used in the State General Obligation Bond Law, and the Treasurer shall serve as chairman of the committee.

2648. All money deposited in the fund which is derived from premium and accrued interest on bonds sold shall be reserved in the fund and shall be available for transfer to the General Fund as a credit to expenditures for bond interest.

2649. Commencing with the Budget Bill for the 1995-96 fiscal year, the balance remaining in the fund may be appropriated by the Legislature for expenditure, without regard to the maximum amounts allocated to each element of the program, for any or all elements of the program specified in Section 2620, or any class or classes of projects within those elements that the Legislature deems to be of the highest priority.

2650. The Legislature hereby finds and declares that, inasmuch as the proceeds from the sale of bonds authorized by this chapter are not "proceeds of taxes" as

that term is used in Article XIII B of the California Constitution, the disbursement of these proceeds is not subject to the limitations imposed by that article.

2651. If any provision of this chapter or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the chapter which can be given effect without the invalid provision or application, and to this end, the provisions of this chapter are severable.

SEC. 3. Section 1 of this act shall become operative July 1, 1984, if the people, at the June 5, 1984, Direct Primary Election, adopt the Fish and Wildlife Habitat Enhancement Act of 1984, as set forth in Section 1 of this act.

### 25. Clean Water Bond Law of 1984. (Statutes 1984, Chapter 377, AB 1732)

[Approved by electors November 6, 1984.]

SECTION 1. Chapter 15 (commencing with Section 13999) is added to Division 7 of the Water Code, to read:

#### CHAPTER 15. CLEAN WATER BOND LAW OF 1984

*13999. This chapter shall be known and may be cited as the Clean Water Bond Law of 1984.*

*13999.1. The Legislature finds and declares as follows:*

*(a) Clean water is essential to the public health, safety, and welfare.*

(b) Clean water fosters the beauty of California's environment, the expansion of industry and agriculture, maintains fish and wildlife, and supports recreation.

(c) California's abundant lakes and ponds, streams and rivers, coastline, and groundwater are threatened with pollution, which could threaten public health and impede economic and social growth if left unchecked.

(d) The state's growing population has increasing needs for clean water supplies and adequate treatment facilities.

(e) It is of paramount importance that the limited water resources of the state be protected from pollution, conserved, and reclaimed whenever possible to ensure continued economic, community, and social growth.

(f) The chief cause of water pollution is the discharge of inadequately treated waste into the waters of the state.

(g) Local agencies have the primary responsibility for construction, operation, and maintenance of facilities to cleanse our waters.

(h) Rising costs of construction and technological changes have pushed the cost of constructing treatment facilities beyond the reach of local agencies alone.

(i) Because water knows no political boundaries, it is desirable for the state to contribute to construction of these facilities in order to meet its obligations to protect and promote the health, safety, and welfare of its people and environment.

(j) Voluntary, cost-effective capital outlay water conservation programs can help meet the growing demand for clean water supplies.

(k) (1) It is the intent of this chapter to provide necessary funds to ensure the full participation by the state under the federal Clean Water Act (33 U.S.C. Sec. 1251 et seq.) and any acts amendatory thereof or supplementary thereto.

(2) It is also the intent of this chapter to provide special assistance to small communities to construct facilities necessary to eliminate water pollution and public health hazards.

(3) It is the further intent of this chapter to provide funds for state participation in the financing of the development and implementation of programs and systems for water reclamation.

(4) It is the further intent of this chapter to provide funds for voluntary, cost-effective capital outlay water conservation programs cooperatively carried out by public agencies and the department.

13999.2. As used in this chapter, and for purposes of this chapter as used in the State General Obligator Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code), the following words shall have the following meanings:

(a) "Committee" means the Clean Water Finance Committee created by Section 13999.4.

(b) "Board" means the State Water Resources Control Board.

(c) "Fund" means the 1984 State Clean Water Bond Fund.

(d) "Municipality" shall have the same meaning as in the federal Clean Water Act (33 U.S.C. Sec. 1251 et seq.) and shall also include the state or any agency, department, or political subdivision thereof.

(e) "Treatment works" shall have the same meaning as in the federal Clean Water Act (33 U.S.C. Sec. 1251 et seq.).

(f) "Construction" shall have the same meaning as in the federal Clean Water Act (33 U.S.C. Sec. 1251 et seq.).

(g) "Eligible project" means a project for the construction of treatment works which is all of the following:

(1) Necessary to prevent water pollution.

(2) Eligible for federal assistance, whether or not federal funds are then available.

(3) Certified by the board as entitled to priority over other treatment works, and which complies with applicable water quality standards, policies, and plans.

In each case, the department shall determine that there is a net savings of water as a result of each proposed project and that the project is cost-effective.

(n) "Department" means the Department of Water Resources.

13999.3. There is in the State Treasury the 1984 State Clean Water Bond Fund, which fund is hereby created. There shall be established in the fund a Clean Water Construction Grant Account for the purpose of implementing Section 13999.8, a Small Communities Assistance Account for the purpose of implementing Section 13999.9, a Water Reclamation Account for the purpose of implementing Section 13999.10 and a Water Conservation Account for the purpose of implementing Section 13999.11.

13999.4. There shall be a Clean Water Finance Committee consisting of the Governor or his designated representative, the Controller, the Treasurer, the Director of Finance, and the Executive Director of the State Water Resources Control Board. The Clean Water Finance Committee shall be the "committee" as that term is used in the State General Obligation Bond Law.

13999.5. (a) The committee is hereby authorized and empowered to create a debt or debts, liability or liabilities, of the State of California, in the aggregate amount of three hundred twenty-five million dollars (\$325,000,000), in the manner provided in this chapter. The debt or debts, liability or liabilities, shall be created for the purpose of providing the fund to be used for the object and work specified in this section and in Sections 13999.6, 13999.8, 13999.9, 13999.10, 13999.11, and 13999.14.

(b) The board is authorized to enter into contracts with municipalities having authority to construct, operate, and maintain treatment works and reclamation

projects, for grants and loans to the municipalities to aid in the construction of eligible projects and eligible water reclamation projects and may adopt rules and regulations necessary to carry out the provisions of this chapter.

(c) As approved by the Legislature annually in the Budget Act, the board may, by contract or otherwise, undertake plans, surveys, research, development, and studies necessary, convenient, or desirable to carry out the purposes of this division, and may prepare recommendations with regard thereto, including the preparation of comprehensive statewide or areawide studies and reports on the collection, treatment, and disposal of waste under a comprehensive cooperative plan.

(d) As approved by the Legislature annually in the Budget Act, the board may expend bond funds necessary for administration of this chapter.

(e) Not more than 5 percent of the money deposited in the fund may be used for purposes of subdivisions (c) and (d).

(f) As approved by the Legislature annually in the Budget Act, the department may direct grants and loans to any public agency or, by contract or otherwise, undertake plans, surveys, research, development, and studies necessary, convenient, or desirable to carry out voluntary, cost-effective capital outlay water conservation programs.

(g) The board may expend funds necessary to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code.

13999.6. All bonds which have been duly sold and delivered constitute valid and legally binding general obligations of the State of California, and the full faith and credit of the State of California is pledged for the punctual payment of both principal and interest.

There shall be collected annually in the same manner, and at the same time as other state revenue is collected, the sum, in addition to the ordinary revenues of the state, required to pay the principal and interest on the bonds. It is the duty of all officers charged by law with any duty in regard to the collection of that revenue to perform each and every act which is necessary to collect this additional sum.

All money deposited in the fund which has been derived from premium and accrued interest on bonds sold is available for transfer to the General Fund as a credit to expenditures for bond interest.

13999.7. The State General Obligation Bond Law is adopted for the purpose of the issuance, sale, and repayment of, and other matters with respect to, the bonds authorized by this chapter. The provisions of that law are included in this chapter as though set out in full in this chapter, except that, notwithstanding any provision in the State General Obligation Bond Law, the bonds authorized under this chapter shall bear the rates of interest, or maximum rates, fixed from time to time by the Treasurer with the approval of the committee. The maximum maturity of the bonds shall not exceed 50 years from the date of the bonds or from the date of each respective series. The maturity of each respective series shall be calculated from the date of the series.

13999.8. (a) The sum of two hundred fifty million dollars (\$250,000,000) of the money in the fund shall be deposited in the Clean Water Construction Grant Account and is appropriated for grants and loans to municipalities to aid in construction of eligible projects and the purposes set forth in this section.

(b) If the federal Clean Water Act authorizes a federal loan program for providing assistance for construction of treatment works, which requires state matching funds, the board may establish a State Water Pollution Control Revolving Fund to provide loans in accordance with the federal Clean Water Act. The board, with the approval of the committee, may transfer funds from the Clean Water Con-

struction Grant Account to the revolving fund for the purposes of meeting federal requirements for state matching funds.

(c) Any contract entered into pursuant to this section may include such provisions as may be determined by the board, provided that any contract concerning an eligible project shall include, in substance, all of the following provisions:

(1) An estimate of the reasonable cost of the eligible project.

(2) An agreement by the board to pay to the municipality, during the progress of construction or following completion of construction as agreed upon by the parties, an amount which equals at least 12½ percent of the eligible project cost determined pursuant to federal and state laws and regulations.

(3) An agreement by the municipality to proceed expeditiously with, and complete, the eligible project; commence operation of the treatment works upon completion and to properly operate and maintain the works in accordance with applicable provisions of law; apply for and make reasonable efforts to secure federal assistance for the eligible project; secure the approval of the board before applying for federal assistance in order to maximize the assistance received in the state; and provide for payment of the municipality's share of the cost of the eligible project.

(d) The board may, with the approval of the committee, transfer moneys in the Clean Water Construction Grant Account to the State Water Quality Control Fund, to be made available for loans to public agencies pursuant to Chapter 6 (commencing with Section 13400).

(e) Grants may be made pursuant to this section to reimburse municipalities for the state share of construction costs for eligible projects which received federal assistance, but which did not receive an appropriate state grant due solely to depletion of the State Clean Water and Water Conservation Fund created pursuant to the Clean Water and Water Conservation Bond Law of 1978 (Chapter 12.5 (commencing with Section 13955)). Eligibility for reimbursement under this section is limited to the actual construction capital costs incurred.

(f) To the extent funds are available, if the federal share of construction funding under Title II of the federal Clean Water Act is reduced below 75 percent, municipalities otherwise eligible for a grant under this section shall also be entitled to a loan from the Clean Water Construction Grant Account of up to 12½ percent of the eligible project cost.

(g) To the extent funds are available, if the federal Clean Water Act authorizes a federal loan program for providing assistance for construction of treatment works, the board may make those loans in accordance with the federal Clean Water Act and state law. The Legislature may enact legislation that it deems necessary to implement the state loan program.

(h) Notwithstanding any other provision of law, and to the extent funds are available, if federal funding under Title II of the federal Clean Water Act ceases, municipalities shall only be entitled to a loan from the Clean Water Construction Grant Account of 25 percent of the eligible project cost.

(i) All loans pursuant to this section are subject to all of the following provisions:

(1) Municipalities seeking a loan shall demonstrate, to the satisfaction of the board, that an adequate opportunity for public participation regarding the loan has been provided

(2) Any election held with respect to the loan shall include the entire municipality except where the municipality proposes to accept the loan on behalf of a specified portion, or portions, of the municipality, in which case the referendum shall be held in that portion or portions of the municipality only.

(3) Any loan made pursuant to this section shall be up to 25 years with an interest rate set annually by the board at 50 percent of the average interest rate paid by the state on general obligation bonds for the calendar year immediately preceding the year in which the loan agreement is executed

(4) The first thirty million dollars (\$30,000,000) in principal and interest from loans made pursuant to this section shall be paid to the Water Reclamation Account. All remaining principal and interest from the loans shall be returned to the Clean Water Construction Grant Account for new obligations.

13999.9. (a) The sum of forty million dollars (\$40,000,000) of the money in the fund shall be deposited in the Small Communities Assistance Account and is appropriated for supplemental state assistance to small communities for construction of treatment works eligible for assistance under Title II of the federal Clean Water Act.

(b) Notwithstanding subdivision (c) of Section 13999.5, the board may make grants to small communities so that the combined federal and state grant is an amount up to 97½ percent of pollution studies, the total estimated cost of planning, design, and construction determined in accordance with applicable state laws and regulations. No supplemental state assistance grant under this section shall be made for projects costing more than two million five hundred thousand dollars (\$2,500,000) unless a finding is made by the board that a higher cost project is the most cost-effective solution to a water quality or public health problem.

(c) Any contract entered into pursuant to this section may include such provisions as may be determined by the board, provided that any contract shall include the provisions required by paragraphs (1) and (3) of subdivision (c) of Section 13999.8.

13999.10. (a) The sum of twenty-five million dollars (\$25,000,000) of the money in the fund shall be deposited in the Water Reclamation Account and is appropriated for loans to municipalities for eligible water reclamation projects which will provide water for beneficial uses.

The board may loan a municipality up to 100 percent of the total eligible costs of design and construction of a reclamation project.

(b) Any contract for an eligible water reclamation project entered into pursuant to this section may include such provisions as determined by the board and shall include both of the following provisions:

(1) An estimate of the reasonable cost of the eligible water reclamation project.

(2) An agreement by the municipality to proceed expeditiously with, and complete, the eligible water reclamation project; commence operation of the project in accordance with applicable provisions of law; provide for payment of the municipality's share of the cost of the project, including principal and interest on any state loan made pursuant to this section; and, if appropriate, apply for and make reasonable efforts to secure federal assistance, other than that available pursuant to the federal Clean Water Act, for the state-assisted project.

(c) Loan contracts may not provide for a moratorium on payments of principal or interest.

(d) Any loans made from the Water Reclamation Account shall be for a period of up to 25 years with an interest rate set annually by the board at 50 percent of the average interest rate paid by the state on general obligation bonds in the calendar year immediately preceding the year in which the loan agreement is executed. All principal and interest from loans shall be returned to the Water Reclamation Account for new loans.

(e) Funds available under this section may be used for loans pursuant to subdivisions (f), (g), and (h) of Section 13999.8 if the Clean Water Construction Grant Account is depleted. All principal and interest on any such loans shall be repaid to the Water Reclamation Account.

(f) No single project may receive more than ten million dollars (\$10,000,000) from the board.

13999.11. (a) Ten million dollars (\$10,000,000) of the money in the fund shall be deposited in the Water Conservation Account and shall be available for appropriation by the Legislature for loans to municipalities to aid in the conduct of voluntary, cost-effective capital outlay water conservation programs and the purposes set forth in this section. Notwithstanding subdivision (e) of Section 13999.5 and subdivision (f) of this section, all of the funds deposited in the Water Conservation Account by this subdivision shall be available for water conservation programs. None of the funds deposited in the Water Conservation Account by this subdivision shall be expended for costs of administration.

(b) Any contract entered into pursuant to this section may include provisions as may be determined by the department. However, any contract concerning an eligible, voluntary, cost-effective capital outlay water conservation program shall include, in substance, all of the following:

- (1) An estimate of the reasonable cost and benefit of the program.
- (2) An agreement by the public agency to proceed expeditiously with, and complete, the program.

(c) Loan contracts may not provide a moratorium on payments of principal or interest.

(d) Any loans made from the Water Conservation Account shall be for a period of up to 25 years with an interest rate set annually by the board at 50 percent of the average interest rate paid by the state on general obligation bonds in the calendar year immediately preceding the year in which the loan agreement is executed. All principal and interest from loans shall be deposited in the Water Conservation Account for new obligations.

(e) No single project may receive more than five million dollars (\$5,000,000) from the department.

(f) As approved by the Legislature annually in the Budget Act, the department may expend up to 5 percent of the funds in the Water Conservation Account for the administration of this section.

13999.12. Except as expressly provided in this chapter, no money deposited in the fund pursuant to any provision of law requiring repayments to the state for assistance financed by the proceeds of the bonds authorized by this chapter shall be available for transfer to the General Fund.

13999.13. There is hereby appropriated from the General Fund in the State Treasury for the purpose of this chapter an amount equal to the sum of the following:

(1) The sum necessary annually to pay the principal of and the interest on the bonds issued and sold pursuant to this chapter, as the principal and interest become due and payable.

(2) The sum necessary to carry out Section 13999.14 which is appropriated without regard to fiscal years.

13999.14. For the purpose of carrying out this chapter, the Director of Finance may, by executive order, authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds which the committee has authorized to be sold for the purpose of carrying out this chapter. Any amounts withdrawn shall be deposited in the fund and shall be disbursed by the board in accordance with this chapter. Any money made available under this section to the board or department shall be returned to the General Fund from money received from the sale of bonds. The withdrawals from the General Fund shall be returned to the General Fund with interest at the rate which would have otherwise been earned by those sums in the Pooled Money Investment Fund.

13999.15. Upon request of the board or department, the committee shall determine whether or not it is necessary or desirable to issue bonds authorized under this chapter in order to make those arrangements, and, if so, the amount of bonds

to be issued and sold. Successive issues of bonds may be authorized and sold to make those arrangements progressively, and it shall not be necessary that all of the bonds authorized to be issued shall be sold at any one time.

13999.16. The committee may authorize the Treasurer to sell all or any part of the bonds at times fixed by the Treasurer.

When transferred to the General Fund, that money shall be applied as a reimbursement to the General Fund for the principal and interest payments on the bonds which have been paid from the General Fund.*

**25386.1.** *There is hereby appropriated from the General Fund in the State Treasury, for the purpose of this article, an amount equal to the sum of all of the following:*

Successive issues of bonds may be authorized and sold to take these actions progressively, and it is not necessary that all of the bonds authorized by this article to be issued are sold at any one time.*

**25386.6.** *If, before July 1, 1991, all outstanding bonds issued pursuant to this article are paid for and the General Fund has been reimbursed for any and all amounts that were expended therefrom to repay the principal of, and interest on, these bonds, this article shall become inoperative on that earlier date.*

[Approved by electors November 6, 1984 ]

SECTION 1. Chapter 10.2 (commencing with Section 13810) is added to Division 7 of the Water Code, to read:

**CHAPTER 10.2. CALIFORNIA SAFE DRINKING WATER  
BOND LAW OF 1984**

**13810** *This chapter shall be known and may be cited as the California Safe Drinking Water Bond Law of 1984.*

**13811.** *The Legislature hereby finds and declares that it is necessary for the preservation of the health, safety, and welfare of the people of California that water supplied for domestic purposes be pure, wholesome, and potable and does not endanger the health or lives of human beings and that water is available in*

adequate quantity at sufficient pressure for health, cleanliness, and other domestic purposes.

13812. The Legislature further finds and declares that a number of domestic water supply systems are inadequate and do not meet minimum bacteriological, chemical, or other basic health standards for domestic water supplies, and that it is in the interest of the people that the State of California provide technical and financial assistance to the end that the people of California are assured a safe, dependable, and potable supply of water for domestic purposes and that water is available in adequate quantity at sufficient pressure for health, cleanliness, and other domestic purposes.

13813. The Legislature further finds and declares that it is the intent of the Legislature to provide for the upgrading of domestic water supply systems to assure that all domestic water supplies at least meet minimum domestic water supply standards established under Chapter 7 (commencing with Section 4010) of Part 1 of Division 5 of the Health and Safety Code.

13814. The State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code) is adopted for the purpose of the issuance, sale, and repayment of, and otherwise providing with respect to, the bonds authorized to be issued pursuant to this chapter, and the provisions of that law are included in this chapter as though set out in full in this chapter, except that notwithstanding anything in the State General Obligation Bond Law, the bonds authorized hereunder shall bear the rates of interest, or maximum rates, as may, from time to time, be fixed by the Treasurer, with the approval of the committee, and the maximum maturity of bonds shall not exceed 30 years from the date of the bonds, or from the date of each respective series. The maturity of each respective series shall be calculated from the date of the series.

The term includes any water supply, treatment, storage, and distribution facilities under the control of the operator of the system.

(d) "Fund" means the California Safe Drinking Water Fund.

(e) "Supplier" or "supplier of water" means any person, partnership, corporation, association, or other entity or political subdivision of the state which owns or operates a domestic water system.

The committee shall consist of the Governor, the Treasurer, the Director of Finance, the Director of Water Resources, and the State Director of Health Services or their designated representatives. A majority of the committee may act for the committee.*

13817. *There is in the State Treasury the California Safe Drinking Water Fund, which fund is hereby created.*

13818. *The committee may create a debt or debts, liability or liabilities, of the State of California, in an aggregate amount of seventy-five million dollars (\$75,000,000) in the manner provided in this chapter. The debt or debts, liability or liabilities, shall be created for the purpose of providing the money to be used for the objects and works specified in Section 13819.*

13819. (a) *The moneys in the fund are hereby continuously appropriated and shall be used for the purposes set forth in this section.*

(b) *The department may enter into contracts with suppliers having authority to construct, operate, and maintain domestic water systems, for loans to suppliers to aid in the construction of projects which will enable the supplier to meet, at a minimum, safe drinking water standards established pursuant to Chapter 7 (commencing with Section 4010) of Part 1 of Division 5 of the Health and Safety Code.*

(c) *Any contract entered into pursuant to this section may include provisions as agreed by the parties thereto, and the contract shall include, in substance, all of the following provisions:*

(3) *An agreement by the supplier to repay the state over a period not to exceed 50 years, (A) the amount of the loan, (B) the administrative fee as described in Section 13830, and (C) interest on the principal, which is the amount of the loan plus the administrative fee.*

(4) *An agreement by the supplier, (A) to proceed expeditiously with, and complete, the project, (B) to commence operation of the project upon completion thereof, and to properly operate and maintain the project in accordance with the applicable provisions of law, (C) to apply for, and make reasonable efforts, to secure federal assistance for the project, (D) to secure approval of the department and of the State Department of Health Services before applying for federal assistance in order to maximize and best utilize the amounts of that assistance available, and (E) to provide for payment of the supplier's share of the cost of the project, if any.*

(d) *Bond proceeds may be used for a grant program in accordance with this chapter, with grants provided to suppliers that are political subdivisions of the state that are otherwise unable to meet minimum safe drinking water standards established pursuant to Chapter 7 (commencing with Section 4010) of Part 1 of Division 5 of the Health and Safety Code. The total amount of grants made pursuant to this chapter shall not exceed twenty-five million dollars (\$25,000,000). The Legislative Analyst shall review the grant program and report to the Legislature not later than June 1, 1987.*

(e) *Notwithstanding any other provision, the proceeds of any bonds authorized to be issued under the California Safe Drinking Water Bond Law of 1976 (Chapter 10.5 (commencing with Section 13850)), which are unissued and uncommitted on the effective date of this chapter, shall be used for loans to suppliers in accordance with the terms, conditions, and purposes of this chapter.*

13820. (a) The department may make state grants to suppliers that are political subdivisions of the state, from moneys in the fund available for that purpose pursuant to subdivision (d) of Section 13819, to aid in the construction of projects which will enable the public agency to meet, at a minimum, safe drinking water standards established pursuant to Chapter 7 (commencing with Section 4010) of Part 1 of Division 5 of the Health and Safety Code. A grant may be made by the department only upon the specific approval of the Legislature, by an act enacted after the receipt of a report filed pursuant to Section 13822.

(b) Any contract for a grant entered into pursuant to this chapter may include provisions as agreed by the parties thereto, and the contract shall include, in substance, all of the following provisions:

(1) An estimate of the reasonable cost of the project.

(2) An agreement by the department to grant to the public agency, during the progress of construction or following completion of construction as agreed by the parties, an amount which equals the portion of construction costs found by the department to be eligible for a state grant.

(3) An agreement by the public agency, (A) to proceed expeditiously with, and complete, the project, (B) to commence operation of the project upon completion thereof, and to properly operate and maintain the project in accordance with the applicable provisions of law, (C) to apply for, and make reasonable efforts to secure, federal assistance for the project, (D) to secure approval of the department and of the State Department of Health Services before applying for federal assistance in order to maximize and best utilize the amounts of that assistance available, and (E) to provide for payment of the public agency's share of the cost of the project, if any.

13821. Applications for grants under this chapter shall be made to the department in the form and with the supporting material as prescribed by the department

13822. The department shall prepare a report on each grant application pursuant to this chapter. The report shall be filed with the Legislature, if it is in session or, if it is not in session, with the Rules Committee of the Assembly and Senate. The department shall be authorized to make the grant only upon the specific approval of the grant by the Legislature, by an act enacted after the receipt of the report from the department.

13823. (a) Loans and grants may be made only for projects for domestic water systems. The department may make reasonable allowance for future water supply needs and may provide for additional capacity when excessive costs would be incurred by later enlargement. The loans and grants may be made for all, or any part, of the cost of constructing, improving, or rehabilitating any system when, in the judgment of the State Department of Health Services, improvement or rehabilitation is necessary to provide pure, wholesome, and potable water in adequate quantity at sufficient pressure for health, cleanliness, and other domestic purposes. No single public agency shall receive grants pursuant to this chapter totaling more than four hundred thousand dollars (\$400,000). Loans may be made to provide for the purchase of a water system or the purchase of watershed lands. No loan to an individual supplier shall exceed the sum of five million dollars (\$5,000,000), unless the Legislature by an act raises the limit specified in this section

(b) Upon receipt of an application for a grant or loan pursuant to this chapter, the department shall propose to the applicant improvements to the applicant's water development, distribution, and utilization system which will conserve water in a cost-effective manner. These improvements may include, but need not be limited to, leak detection and repair programs, valve repair and replacement, meter calibration and replacement, physical improvements to achieve corrosion control, distribution and installation of water conservation devices and fixtures,

and other capital improvements which can be demonstrated to conserve water in a cost-effective manner. The department and applicant may agree to include these capital improvements in the grant or loan. Failure by the applicant to include water conservation capital improvements in the grant or loan application shall not be sufficient cause for the department to refuse to make the grant or loan.

13824. An application for a grant pursuant to this chapter shall not be approved by the department, unless the department determines that the public agency is otherwise unable to meet minimum safe drinking water standards established pursuant to Chapter 7 (commencing with Section 4010) of Part 1 of Division 5 of the Health and Safety Code.

No grant shall be made by the department except upon approval by the State Department of Health Services of project plans submitted by the applicant and upon issuance to the public agency of a permit or amended permit as specified in Chapter 7 (commencing with Section 4010) of Part 1 of Division 5 of the Health and Safety Code.

13825. First priority for grants shall be granted to public agencies having immediate health related problems, as certified by the State Department of Health Services. Additional high priority shall be granted to projects to correct immediate problems, as opposed to grants for construction of projects to meet future growth needs.

13826. First priority for loans shall be given to suppliers with the most critical public health problems. Priority for loans shall also be given to suppliers which have a lesser capability to reasonably finance system improvements.

13827. Preliminary design work, including a cost estimate for the project, shall be completed before a loan or grant is awarded. Operation and maintenance costs shall be the responsibility of the supplier and may not be considered as part of the project cost. Costs for planning and preliminary engineering studies may be reimbursed following the receipt of a loan or grant subject to approval by the department and the State Department of Health Services.

13828. No application for a grant may be made pursuant to this chapter unless the public agency has also applied for a loan pursuant to this chapter. A public agency shall be eligible for a grant only to the extent that the department finds that the agency is found unable to repay the full costs of a loan.

If the department has determined that the applicant is unable to repay the full costs of a loan, the applicant may also file for a grant. Upon receipt of a grant application, the department shall determine that portion of the full costs that the applicant is capable of repaying. Grant funds shall only be provided for that portion that the applicant is not capable of repaying.

13829. Grant funds shall be expended by the public agency within three years of the making of the grant. No grant funds may be expended by the public agency unless the public agency is able to demonstrate to the department, within one year of the making of the grant, supported by an acceptable bid, that the amount to be expended for the project will be within 20 percent of the public agency's cost estimate for the project.

13830. For the purpose of administering of this chapter, the total expenditures of the department and the State Department of Health Services may not exceed 4 percent of the total amount of the bonds authorized to be issued under this chapter. The department shall establish a reasonable schedule of administrative fees for loans, which fees shall be paid by the supplier pursuant to Section 13819, to reimburse the state for the costs of state administration of this chapter.

Charges incurred by the Attorney General in protecting the state's interests in the use and repayment of grant and loan funds under this chapter, and under the California Safe Drinking Water Bond Law of 1976 (Chapter 10.5 (commencing with Section 13850)), shall be paid from the proceeds of bond sales under this chapter. These charges shall not be paid be from the 4 percent allocated for

administrative purposes, but shall be treated as a program expense not to exceed 1.5 percent of the total amount of the bonds authorized to be sold under this chapter.

13831. As much of the moneys in the fund as may be necessary shall be used to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code.

13832. Repayment of all or part of the principal, which is the loan plus the administrative fee, may be deferred during a development period not exceeding 10 years within the maximum 50-year repayment period, when, in the department's judgment, the development period is justified under the circumstances. Interest on the principal shall not be deferred. Repayment of principal which is deferred during a development period may, at the option of the supplier, be paid in annual installments during the remainder of the loan repayment period.

13833. The department shall require the payment of interest on each loan that is made pursuant to this chapter at a rate equal to the average, as determined by the Treasurer, of the net interest cost to the state on the sales of general obligation bonds pursuant to this chapter. However, when the applicable average of the net interest costs to the state is not a multiple of one-tenth of 1 percent, the interest rate shall be at the multiple of one-tenth of 1 percent next above the applicable average of the net interest costs.

13834. The department, after public notice and hearing and with the concurrence of the State Department of Health Services, shall adopt rules and regulations necessary to carry out the purposes of this chapter. The regulations shall include, but not be limited to, criteria and procedures for establishing the eligibility of a supplier.

It is the duty of the department to adopt rules and regulations that, in its judgment, will most effectively carry out the provisions of this chapter in the public interest, to the end that the people of California are most efficiently and most economically provided supplies of pure, wholesome, and potable domestic water. The rules and regulations may provide for the denial of funds when the purposes of this chapter may most economically and efficiently be attained by means other than the construction of the proposed project.

13835. The State Department of Health Services shall notify suppliers that may be eligible for loans pursuant to this chapter of (a) the purposes of this chapter and (b) the rules and regulations adopted by the department.

13836. The State Department of Health Services, after public notice and hearing and with the advice of the department, shall, from time to time, establish a priority list of suppliers to be considered for financing.

13837. Upon approval by the State Department of Health Services of project plans submitted by a supplier on the priority list and upon issuance to the supplier of a permit or amended permit as specified in Chapter 7 (commencing with Section 4010) of Part 1 of Division 5 of the Health and Safety Code, the department may enter into a contract with the supplier.

13838. Not more than twenty million dollars (\$20,000,000) of state loans for projects shall be authorized by the department in a single calendar quarter. No contract shall be approved by the department, unless the department finds that the supplier has the capacity to repay the loan amounts specified in the contract.

At the request of the department, the Public Utilities Commission shall furnish comments concerning the ability of suppliers subject to its jurisdiction to finance the project from other sources and the ability to repay the loan.

13839. All bonds authorized, which have been duly sold and delivered pursuant to this chapter, shall constitute valid and legally binding general obligations of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal and interest thereon.

*There shall be collected annually in the same manner, and at the same time as other state revenue is collected, a sum, in addition to the ordinary revenues of the state, that is required to pay the principal and interest on the bonds, and it is hereby made the duty of all officers charged by law with any duty in regard to the collection of that revenue, to do and perform each and every act which shall be necessary to collect that additional sum.*

*All money deposited in the fund which has been derived from premium on bonds sold is available for transfer to the General Fund as a credit to expenditures for bond interest.*

*13840. All money repaid to the state pursuant to any contract executed under Section 13819 shall be deposited in the General Fund and, when so deposited, shall be applied as a reimbursement to the General Fund on account of principal and interest on bonds issued pursuant to this chapter which has been paid from the General Fund.*

*13841. There is hereby appropriated from the General Fund in the State Treasury, for the purpose of this chapter, an amount equal to the sum of the following:*

*(a) The amount annually necessary to pay the principal of, and the interest on, the bonds issued and sold pursuant to this chapter, as the principal and interest become due and payable.*

*(b) The amount necessary to carry out Section 13842, which amount is appropriated without regard to fiscal years.*

*13842. For the purpose of carrying out this chapter, the Director of Finance may, by executive order, authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds which the committee has, by resolution, authorized to be sold for the purpose of carrying out this chapter.*

*Any amounts withdrawn shall be deposited in the fund and shall be disbursed by the department in accordance with this chapter. Any money made available under this section to the department shall be returned by the department to the General Fund from money received from the first sale of bonds sold for the purpose of carrying out this chapter subsequent to the withdrawal.*

*13843. Upon request of the department, supported by a statement of the proposed arrangements to be made pursuant to Section 13819 for the purposes stated therein, the committee shall determine whether or not it is necessary or desirable to issue any bonds authorized under this chapter in order to make those arrangements, and, if so, the amount of bonds then to be issued and sold. Successive issues of bonds may be authorized and sold to make those arrangements progressively, and it shall not be necessary that all of the bonds authorized to be issued shall be sold at any one time.*

*13844. The committee may authorize the Treasurer to sell all or any part of the bonds authorized at the time or times as fixed by the Treasurer.*

*13845. All proceeds from the sale of bonds, except those derived from premiums and accrued interest, are available for the purpose provided in Section 13819, but are not available for transfer to the General Fund to pay principal and interest on bonds. The money in the fund may be expended only as provided in this chapter.*

998.067. All bonds authorized by this article, when duly sold and delivered as provided herein, constitute valid and legally binding general obligations of the State of California, and the full faith credit of the State of California is hereby pledged for the punctual payment of both principal and interest thereof.

There shall be collected annually in the same manner and at the same time as other state revenue is collected a sum of money, in addition to the ordinary revenues of the state, sufficient to pay the principal and interest on these bonds as provided herein, and all officers required by law to perform any duty in regard to the collection of state revenues shall collect this additional sum.

On the dates on which funds are remitted pursuant to Section 16676 of the Government Code for the payment of the then maturing principal and interest of the bonds in each fiscal year, there shall be returned into the General Fund all of the money in the Veterans' Farm and Home Building Fund of 1943, not in excess of the principal of and interest on any bonds then due and payable, except as herein provided for the prior redemption of the bonds, and, if the money so returned on the remittance dates is less than the principal and interest then due and payable, the balance remaining unpaid shall be returned into the General Fund out of the Veterans' Farm and Home Building Fund of 1943 as soon as it shall become available, together with interest thereon from the dates of maturity until so returned at the same rate of interest as borne by the bonds, compounded semiannually.

998.070. Upon request of the board, supported by a statement of its plans and projects approved by the Governor, the committee shall determine whether to issue any bonds authorized under this article in order to carry out the board's plans and projects, and, if so, the amount of bonds to be issued and sold. Successive issues of bonds may be authorized and sold to carry out these plans and projects progressively, and it is not necessary that all the bonds be issued or sold at any one time.

The results of each survey and projection shall be reported in writing by the public accountant to the Director of Veterans Affairs, the California Veterans Board, and the committee.

The Division of Farm and Home Purchases shall reimburse the public accountant for these services out of any money which the division may have available on deposit with the Treasurer.

998.072. The committee may authorize the Treasurer to sell all or any part of the bonds authorized by this article at the time or times fixed by the Treasurer.

Whenever the committee deems it necessary for an effective sale of the bonds, the committee may authorize the Treasurer to sell any issue of bonds at less than their par value, notwithstanding Section 16754 of the Government Code. However, the discount on the bonds shall not exceed 3 percent of the par value thereof.

998.073. Out of the first money realized from the sale of bonds as provided herein, there shall be redeposited in the General Obligation Bond Expense Revolving Fund, established by Section 16724.5 of the Government Code, the amount of all expenditures made for the purposes specified in that section, and this money may be used for the same purpose and repaid in the same manner whenever additional bond sales are made.

For the purpose of authorizing the issuance and sale, pursuant to the State General Obligation Bond Law, of the bonds authorized in this chapter, the Senior Center Finance Committee is hereby created. The committee consists of the Treasurer, the Controller, the Director of Finance, and the Director of the Department of Aging.

The committee is hereby authorized and empowered to create a debt or debts, liability or liabilities, of the State of California, in the aggregate amount of fifty million dollars (\$50,000,000), in the manner provided in this chapter. There shall be collected annually in the same manner and at the same time as other state revenue is collected such a sum, in addition to the ordinary revenues of the state, as shall be required to pay the interest and principal on the bonds maturing each year, and it is hereby made the duty of all officers charged by law with any duty in regard to the collection of the revenue to do and perform each and every act which shall be necessary to collect that additional sum.

All money deposited in the fund pursuant to any provision of law requiring repayments to the state for assistance financed by the proceeds of the bonds authorized by this chapter shall be available for transfer to the General Fund. When transferred to the General Fund, this money shall be applied as a reimbursement to the General Fund on account of principal and interest on the bonds which have been paid from the General Fund.

9465. There is hereby appropriated from the General Fund in the State Treasury for the purpose of this chapter, such an amount as will be equal to the following:

(a) That sum annually as will be necessary to pay the principal of and the interest on the bonds issued and sold pursuant to the provisions of this chapter, as principal and interest become due and payable.

(b) That sum as is necessary to carry out the provisions of Section 9464, which sum is appropriated without regard to fiscal years.

9466. For purposes of carrying out this chapter, the Director of Finance may by executive order authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds which the committee has by resolution authorized to be sold for the purpose of carrying out this chapter.

*Any amounts withdrawn shall be deposited in the fund and shall be disbursed by the board in accordance with this chapter. These withdrawals from the General Fund shall be returned to the General Fund with interest at the rate which would have otherwise been earned by these sums in the Pooled Money Investment Fund.*

*The committee may authorize the Treasurer to sell all or any part of the bonds authorized by this chapter at the time or times as may be fixed by the Treasurer.*

*All proceeds from the sale of bonds, except those derived from premiums and accrued interest, shall be available for the purpose provided in Section 9452 but shall not be available for transfer to the General Fund to pay principal and interest on bonds. ## INITIATIVE CONSTITUTIONAL AMENDMENT AND STATUTE

*Number

### 39. Reapportionment.

[Submitted by the initiative and rejected by electors November 6, 1984.]

#### PROPOSED ADDITION OF ARTICLE VI A, REPEAL OF ARTICLE XXI, AMENDMENT OF ARTICLE IV, SECTION 6, AMENDMENT OF ARTICLE VI, SECTION 17 REPEAL OF DIVISION 18 OF THE ELECTIONS CODE

First—That Article VI A is added thereto to read:

#### ARTICLE VI A REAPPORTIONMENT OF SENATE, ASSEMBLY, BOARD OF EQUALIZATION AND UNITED STATES HOUSE OF REPRESENTATIVES

*SECTION 1. The people find and declare each of the following:*

- (a) Fair reapportionment is essential to representative democracy.*
- (b) Unfair reapportionment dilutes the political power of voters, reduces competition for elective office, and destroys public confidence in government.*
- (c) The recent history of reapportionment in California is distinguished by unfair attempts to protect incumbent officeholders and the political party in power. The people overwhelmingly rejected unfair apportionment plans enacted by the Legislature. The Legislature thereupon thwarted the people's will by adopting new apportionment plans which were not essentially different from those rejected by the people. Efforts of the people to enact their own apportionment plans through the initiative process were rejected by the state Supreme Court.*
- (d) Permitting legislators to reapportion their own districts is an obvious conflict of interest. It encourages political gerrymandering while discouraging meaningful political competition. The current manner of reapportionment also diverts the Legislature's attention from other pressing state business. Partisan legislative struggles over reapportionment at times result in the complete paralysis of state government. The process, therefore, should be removed from the Legislature.*
- (e) It is possible to prepare apportionment plans for the Legislature, Congress, and the Board of Equalization without a partisan, legislative struggle. Apportionment plans should be based on objective criteria to ensure fair representation for all people of the State, including ethnic, racial, and language minorities, and should avoid political gerrymandering.*
- (f) Newly developed computer technology permits non-partisan personnel trained in its use to design districts that comply with objective reapportionment criteria. Given adequate time and opportunity for interested persons to analyze proposed apportionment plans and provide criticism and comment, an impartial commission can evaluate proposals and adopt fair apportionment plans.*

(g) Experienced former judges without past ties to the Legislature, by virtue of training and judicial temperament, are uniquely qualified to serve as members of such an impartial commission and decide on fair apportionment plans.

(h) Apportionment plans defining the boundaries of existing districts should be immediately repealed in favor of fair apportionment plans. The responsibility for devising these apportionment plans, which will establish district boundaries for the remainder of this decade, and thereafter, should be vested in the Fair Reapportionment Commission created by this article.

(i) The immediate adoption and implementation of fair reapportionment is necessary to restore public faith in California state democratic institutions.

**SECTION 2.** Subject to provisions of this Constitution relating to the initiative and referendum powers of the people, the sole and exclusive authority to adopt apportionment plans which specify the boundaries of districts for the state Senate, state Assembly, state Board of Equalization and the United States House of Representatives for California is vested in the Fair Reapportionment Commission established by this article. All existing apportionment plans shall be void and of no further effect upon the adoption of this article.

**SECTION 3.** In 1985, and thereafter in the year following the year in which the national census is taken under the direction of Congress at the beginning of each decade, the Fair Reapportionment Commission shall adopt separate plans of apportionment for the state Senate, state Assembly, state Board of Equalization, and the United States House of Representatives for California.

**SECTION 4.** (a) Each apportionment plan shall provide fair representation for all people of the State, including racial, ethnic, and language minorities, consistent with the requirements of the United States Constitution.

(b) Each apportionment plan shall promote competition for elective office.

(c) Each state Senate district shall be composed of 2 adjacent Assembly districts and each Board of Equalization district shall be composed of 10 adjacent Senate districts.

(d) Districts shall be single-member.

(e) State legislative districts shall have populations which are as nearly equal as practicable, except that they may vary to accomplish the objectives and standards of this section, consistent with federal constitutional standards applicable to state legislative districts.

(f) Congressional districts shall have populations which are as nearly equal as practicable, consistent with federal constitutional standards applicable to congressional districts.

(g) Districts shall be comprised of whole census units.

(h) The 20 Senate districts with the highest percentage of population from currently even-numbered districts shall be assigned even numbers and the 20 Senate districts with the highest percentage of population from currently odd-numbered districts shall be assigned odd numbers.

(i) To the extent it is practical to do so, districts shall:

(1) Be geographically compact. Populous contiguous territory shall not be bypassed to reach distant populous areas.

(2) Not cross any common county boundary more than once.

(3) Be composed of contiguous territory, with reasonable access between population centers in the district.

(4) Preserve identifiable communities of interest.

(j) To the extent it is practical to do so, apportionment plans shall:

(1) Minimize the division of counties and cities.

(2) Not be drawn for the purpose of favoring any political party.

(3) Not be drawn for the purpose of favoring incumbents.

**SECTION 5.** (a) Members of the Fair Reapportionment Commission shall be

chosen in the year of adoption of this article, and thereafter in the year following the year in which the national census is taken under the direction of the Congress of the United States at the beginning of each decade, in the following manner:

(1) Within 20 days following adoption of this article, and thereafter by January 10 following the year in which the national decennial census is taken, the Judicial Council shall provide to the Secretary of State the names of all former justices of the court of appeal and Supreme Court who voluntarily resigned or retired from their respective judicial posts for reasons other than physical or mental disability and who:

- (i) Have served as judges of a court of record of this state for 5 years or longer.
- (ii) Have never served as members of the state Senate, state Assembly, state Board of Equalization, or the United States House of Representatives.
- (iii) Do not hold a public office or political party office.
- (iv) Are not employed for compensation to influence any member of the United States Congress, state Senate, state Assembly, or state Board of Equalization.

(2) The names of eligible justices shall be provided by the Judicial Council on 2 lists. One list shall be composed of justices initially appointed by Governors of the political party with which the largest number of persons registered to vote were affiliated at the time of the last statewide general election. The second list shall be composed of justices initially appointed by Governors of the political party with which the second largest number of persons registered to vote were affiliated at the time of the last statewide general election.

(3) Within 10 days after such names have been furnished to the Secretary of State, the President of the University of California, under the supervision of the Secretary of State, or either of their designees, shall draw by lot and record the order of the names of justices from each list until all names are drawn. The first 4 justices on each list who are available to serve shall constitute the voting membership of the commission. The president shall notify the justices of their selection and upon the selection of 4 justices from each list shall notify the Secretary of State that the commission has been constituted.

(4) In the event either list is exhausted, it shall be augmented by the Judicial Council, first with the names of former superior court judges who meet the qualifications prescribed by Section 5 for former appellate court justices and then, if necessary, with the names of former municipal court judges meeting those qualifications. The list of former justices initially appointed by governors of the largest political party shall be augmented with the names of former judges currently affiliated with that party. The list of former justices initially appointed by the governors of the second largest political party shall be augmented with the names of former judges currently affiliated with that party. Selections made from each list shall be made in accordance with the procedures prescribed by paragraph (3).

(5) In addition to 8 voting members, one nonvoting member shall be appointed by the Governor and a second nonvoting member shall be appointed by a statewide officer affiliated with the largest political party of which the Governor is not a member, in the following order of priority: first, Lieutenant Governor; second, Attorney General; third, Secretary of State; fourth, Controller; and fifth, Treasurer.

(6) In the event all of the statewide officers referred to in paragraph (5) and the Governor are affiliated with the same political party, the second nonvoting member shall be appointed by the chairman of the largest political party with which the Governor is not affiliated.

(7) An additional nonvoting member shall be appointed by the chairman of any other political party qualified to participate in the statewide direct primary if both of the following criteria exist:

- (i) At least 20 percent of all voters registered to vote at the last statewide general election were affiliated with the party.

(ii) Neither nonvoting member appointed pursuant to paragraphs (5) and (6) was appointed by a statewide officer or party chairman affiliated with the party.

(b) Members of the commission shall serve until apportionment plans adopted by the commission become effective and all legal and referendum challenges have been resolved. Any vacancy in the voting membership of the commission which occurs after the commission is constituted shall be filled within 3 days by a new drawing by lot from the judicial list of the prior incumbent, conducted in the manner prescribed by this section. A vacancy in the non-voting membership shall be filled in the manner prescribed for the selection of the previous incumbent, except that if the party affiliation of the appointing authority has changed since the prior appointment, the vacancy shall be filled in the manner prescribed by paragraphs (5) and (6) of subdivision (a) by a statewide officer or party chairman of the same party as the prior appointing authority.

**SECTION 6.** (a) Within 20 days after the commission is constituted, it shall hold its first meeting at a time and place designated by the Secretary of State.

(b) The commission shall elect, from its voting membership, a chairman and vice chairman who shall not be affiliated with the same political party.

(c) The commission shall employ and contract for needed staff, consultants, and services, and, by a majority vote of all of the voting members, shall appoint an executive director who shall serve at the commission's pleasure. Each nonvoting member shall be entitled to appoint a staff assistant. Commission staff, as well as staff appointed by nonvoting members, shall be exempt from civil service.

(d) Nonvoting members and their staff assistants shall be entitled to participate in all meetings and deliberations of the commission and shall have equal access to information gathered by the commission and to services of commission staff. However, these members shall be ineligible to vote and their attendance shall not be considered in determining the existence of a quorum.

(e) Commission meetings shall be open to the public. Commission records, data, and plans shall be available, at no charge, for public inspection. Copies of records, data, and plans shall be provided, for a reasonable fee, to any interested person.

(f) A majority of the entire voting membership of the commission shall constitute a quorum for the transaction of business or exercise of any power of the commission. All action by the commission shall require approval of a majority of the entire voting membership, excluding members rendered ineligible to vote under the provisions of subdivision (f) of Section 7.

(g) The Secretary of State shall collect and maintain data necessary to carry out the purposes of this article and provide it to the commission and, for a reasonable fee, to other interested persons.

**SECTION 7.** (a) The commission initially formed under this article shall adopt final apportionment plans for the 1986 through 1990 elections based on the 1980 national decennial census. These plans shall be adopted and filed with the Secretary of State by July 31, 1985.

(b) Subsequent commissions shall adopt plans based on the national decennial census taken in the year preceding the commission's formation, as set forth in Section 5. These plans shall be adopted and filed with the Secretary of State by October 1 next following the formation of the commission, or 180 days after receipt of necessary census data, whichever is earlier.

(c) A commission formed under this article shall remain in existence until final apportionment plans for the decade in which the commission was created become effective and all legal and referendum challenges have been resolved. At that time the powers of the commission to adopt apportionment plans shall terminate.

(d) In fulfilling its responsibilities under this article, the commission shall solicit public comment and shall hold public hearings both before and after the preparation of preliminary apportionment plans. At least 60 days prior to the deadline for the adoption of final plans, as provided in subdivisions (a) and (b), the executive

director of the commission, after consulting with commission members, shall prepare and file with the Secretary of State individual preliminary apportionment plans for the state Senate, state Assembly, state Board of Equalization, and United States House of Representatives. Each plan shall be in substantially final form. The commission shall hold at least 2 additional public hearings after preliminary plans have been filed with the Secretary of State.

(e) The commission shall provide notice of all public hearings reasonably calculated to provide interested parties adequate opportunity to appear or provide written comments.

(f) Whenever a majority of the commission is unable to reach agreement on the adoption of a final apportionment plan, or an individual element thereof, or on the selection of an executive director, and in the judgment of the chairman there is no reasonable probability that a majority will agree in the future, the chairman shall declare an impasse and the following procedures shall apply:

(1) On the day the impasse is declared, the chairman shall prepare and furnish to the commission a written "notice of impasse" which identifies the disputed issue or issues creating the impasse.

(2) No later than 2 days after an impasse is declared, the commission shall vote on the issue or issues identified in the notice of impasse and if a majority again fails to concur, the name of a commission member shall be drawn by lot, pursuant to procedures previously established by the commission, and the member so selected shall be ineligible to again vote on the issue.

(3) If after disqualification of a single member a majority of the commission as reconstituted is still unable to concur on an issue, the name of a commission member shall be drawn in succession at intervals not to exceed 2 days until a majority as reconstituted concurs on the issue.

(g) Whenever 4 members of the commission agree that an impasse exists, the chairman shall also declare an impasse, and the procedures provided for in subdivision (f) shall also apply.

(h) Each final plan adopted by the commission shall be filed with the Secretary of State together with a written statement of findings and reasons for adoption.

**SECTION 8.** (a) An apportionment plan shall take effect upon filing with the Secretary of State. The day it is filed with the Secretary of State shall constitute its enactment date.

(b) An adopted apportionment plan shall have the full effect of a statute and shall be published in the Statutes of California.

(c) A plan, or any part thereof, shall not be subject to repeal or amendment by the Legislature.

(d) Each plan adopted by the commission is subject to referendum under the same requirements and procedures applicable to a statute. Notwithstanding the qualification of a referendum petition against an apportionment plan, the plan shall be used as an interim plan at the next statewide direct primary and general elections. If the plan is rejected by the voters, it shall not be used in any subsequent statewide direct primary, and the commission shall adopt a new plan within 120 days of that rejection.

**SECTION 9.** The Supreme Court shall have exclusive state court jurisdiction to review an apportionment plan adopted by the commission. Any person may file a petition with the court challenging a plan adopted by the commission, but that petition shall be filed within 30 days of the adoption of that final plan or the action is forever barred. The court shall render its final decision within 60 days after a petition is filed. Failure to render a final decision within 60 days shall constitute a denial of the petition. If the court finds a plan to be violative of federal or state constitutional or federal statutory provisions, the commission shall prepare a new plan. If the commission fails to adopt a new plan by February 1 of the year of the statewide direct primary election, primary and general elections shall be conducted under the plan previously adopted by the commission. The commission shall adopt a new plan within 120 days for use in subsequent elections.

**SECTION 10.** *To the extent practicable, the commission shall rely on existing state resources in executing its responsibilities. State agencies shall make available to the commission such personnel, facilities and other assistance as the commission may reasonably request. The Legislature shall appropriate funds to the commission and to the Secretary of State adequate to carry out their duties under this article. The amount appropriated to the commission shall be no greater than one-half the amount expended by the Legislature, including committees and party caucuses thereof, to develop apportionment plans based on the 1980 decennial census, adjusted for the cost of living, as determined by the Department of Finance. In computing that amount the Department of Finance shall include all expenditures for the collection and analysis of data and development of proposed and final plans as well as all other costs incurred by the Legislature for the purpose of devising and adopting apportionment plans.*

**SECTION 11.** *If any part of this article or the application to any person or circumstance is held invalid, the invalidity shall not affect other provisions or applications which reasonably can be given effect without the invalid provision or application.*

Second—That Article XXI is repealed.

#### ARTICLE XXI

A judge of the superior or municipal court may, however, become eligible for election to other public office by taking a leave of absence without pay prior to filing a declaration of candidacy. Acceptance of the public office is a resignation from the office of judge.*

*A judicial officer may not receive fines or fees for personal use.*

Individuals and interest groups who make large contributions frequently enjoy disproportionate access to public officials and influence in government decisionmaking. Large contributions impede the solicitation or making of small contributions.*

*(b) Inherent in the high cost of election campaigning is the problem of improper influence, real or potential, exercised by campaign contributors over elected officials.*

*(c) It is the policy of this state to foster broad-based citizen involvement in financing election campaigns.*

*(d) It is the policy of this state to protect the integrity of the electoral process.*

*(e) The best interests of the citizens of this state are served by reducing the direct and indirect costs of campaigns. Substantial, indirect costs accrue to the public when special interests pass on legislative and campaign-related expenses thereby increasing the costs of goods and services to the public.*

*(f) Individuals have a right to expend their own personal resources without limitation, to advance their own candidacy, pursuant to the guarantee of freedom of speech encompassed in the First Amendment of the United States Constitution, and the public has a right to insure the fullest and most thorough discussion and debate of public issues during an election campaign by expending public funds to secure the widest possible dissemination of information from diverse and antagonistic sources to assure an unfettered interchange of ideas.*

SEC. 2. Section 81002.5 is added to the Government Code, to read:

*81002.5. The people also enact this title to accomplish the following purposes:*

*(a) To foster an orderly political forum in which individuals may express themselves effectively.*

*(b) To place realistic and enforceable limits on the amounts of money that may be contributed to political campaigns for elective state office.*

*(c) To secure the widest possible dissemination of information from diverse and antagonistic sources to assure an unfettered interchange of ideas.*

*(d) To limit the use of loans and credit in the financing of political campaigns for elective state office*

SEC. 3. Section 82027.3 is added to the Government Code, to read:

*82027.5. "Fiscal year" means July 1 to June 30.*

SEC. 5. Section 82038.5 is added to the Government Code, to read:

*82038.5. "Legitimate campaign expenditures" means expenditures by a candidate, or by any person authorized by the candidate to make expenditures on his or her behalf, to further the candidate's election to elective state office or political*

*expenditures relating to the holding of that office, that have no more than an incidental personal benefit and have a substantial political purpose.*

SEC. 6. Section 82047.5 is added to the Government Code, to read:

*82047.5. "Political action committee" means a committee of individuals who receive contributions from individuals and make contributions to candidates.*

SEC. 7. Section 83116 of the Government Code is amended to read:

*83116. When the Commission determines there is probable cause for believing this title has been violated, it may hold a hearing to determine if such a violation has occurred. Notice shall be given and the hearing conducted in accordance with the Administrative Procedure Act (Government Code, Title 2, Division 3, Part 1, Chapter 5, Sections 11500 et seq.). The Commission shall have all the powers granted by that chapter.*

When the Commission determines on the basis of the hearing that a violation has occurred, it shall issue an order which may require the violator to:

(a) Cease and desist violation of this title;

(b) File any reports, statements or other documents or information required by this title;

(c) Pay a monetary penalty of up to two thousand dollars (\$2,000) to the ~~Gen~~eral Good Government Fund of the state.

## PROPOSED LAW

Part 1.7 (commencing with Section 10300) is added to Division 9 of the Welfare

and Institutions Code, to read:

**PART 1.7. CALIFORNIA PUBLIC ASSISTANCE COMMISSION**

**CHAPTER 1. GENERAL PROVISIONS**

**10300.** *This act shall be known as, and may be cited as, the 1984 State Welfare Reform Act.*

**10301.** *The people of the State of California find and declare as follows:*

(a) *State government bears a responsibility to serve legitimate needs of California citizens who are unable to meet their basic living expenses, and it must fulfill this responsibility in the most efficient and cost-effective manner possible.*

(b) *California's aged, blind, and disabled citizens are deserving of the highest priority in the determination of tax-supported public assistance benefit levels by the Legislature for the poor in this state.*

(c) *State government must strike a proper balance between its commitment of tax revenues to the care of the poor in California and the extent to which excessive tax-supported public assistance benefits may be counterproductive and defeat the fundamental goal of providing the poor in this state with the incentive to become productive and independent citizens.*

(d) *State government has the further responsibility of ensuring that the maximum amount of state tax revenues dedicated for the support of the poor in California should be expended on provision of direct benefits to persons eligible for public assistance.*

(e) *One means of striking the critical balance between necessary expenditures for public assistance programs and potentially excessive levels of public assistance benefits is through an annual comparison between the level of welfare benefits afforded eligible persons in California and in the other 49 states.*

**10302.** *The people of the State of California enact this part to accomplish the following purposes:*

(a) *Reduction in the scope, monetary support levels, and state and county administrative costs of California public assistance programs to the extent permitted by federal law.*

(b) *Presentation to the Legislature and the Governor of data concerning public assistance programs in this state and in the 49 other states, with this data to be used by the Legislature and the Governor in implementing public assistance benefit levels and administrative cost levels in this state which more closely reflect public assistance benefit levels and administrative cost levels in the 49 other states.*

**10303.** *This part shall be liberally construed to accomplish its purposes.*

**10304.** *As used in this part, "commission" means the California Public Assistance Commission established pursuant to Section 10310.*

**10305.** *As used in this part the term "state per capita expenditure" means the total amount of funds expended in a state, including federal, state, and county funds, divided by the number of residents in the state.*

**10306.** (a) *Except as provided in subdivision (b), for purposes of this part, public assistance programs shall be deemed to refer to existing public social services programs provided for, pursuant to Part 3 (commencing with Section 11000), on or before the effective date of this part, and any other similar program, as determined by the commission, enacted by the Legislature subsequent to the effective date of this part.*

(b) *Public assistance programs shall not be deemed to include the child and spousal support provisions contained in Article 7 (commencing with Section 11475) of Chapter 2 of Part 3, State Supplementary Program and the In-Home Supportive Services Program, as provided for pursuant to Chapter 3 (commencing with Section 12000) of Part 3, County Social Services Programs funded pursuant*

to Chapter 5 (commencing with Section 13000) of Part 3, skilled nursing and intermediate care facility services, provided for under subdivisions (c) and (n) of Section 14132, the Adult Day Health Care Program provided for pursuant to Chapter 8.7 (commencing with Section 14520) of Part 3, and payments for persons in nonmedical out-of-home care facilities, as provided for pursuant to Chapter 6.5 (commencing with Section 13900) of Part 3. The commission may, at its option, exempt from the provisions of this part any other program which would otherwise qualify pursuant to subdivision (a) if the program provides services exclusively to aged, blind, or disabled persons, as those terms are defined pursuant to Title XVI of the federal Social Security Act, 42 U.S.C. 1381, et seq.

#### CHAPTER 2. COMMISSION

10310. (a) The California Public Assistance Commission is hereby established in state government in order to carry out the functions and duties set forth in this part. The commission shall have seven members appointed by the Governor. The Governor shall designate the chairman of the commission. Members of the commission appointed by the Governor shall serve at the pleasure of the Governor. The commission shall be composed of two directors of county welfare departments, two county administrative officers, and three county supervisors. The members of the commission shall serve without compensation, but each shall receive a per diem of fifty dollars (\$50), and each shall be reimbursed for any reasonable and necessary expenses incurred in connection with the performance of their duties under this part.

(b) In addition, the Secretary of Health and Welfare and the Director of Finance shall serve as ex officio nonvoting members of the commission.

(c) One Member of the Senate, appointed by the Senate President pro Tempore, and one Member of the Assembly, appointed by the Speaker of the Assembly, shall, as ex officio nonvoting members of, meet with, and participate in the work of, the commission to the extent that such participation is not incompatible with their positions as Members of the Legislature. The Members of the Legislature appointed to the commission shall serve at the pleasure of the appointing power.

#### CHAPTER 3. POWERS AND DUTIES

10320. (a) The commission may employ and fix the compensation, in accordance with law, of an executive secretary and such other technical and clerical assistants as may be necessary.

(b) The commission may establish such technical advisory committees as are deemed necessary to the functioning of the commission in carrying out the provisions of this chapter.

(c) The departments and agencies within the state Health and Welfare Agency shall cooperate with and provide all necessary technical and administrative assistance to the commission essential to the carrying out of the provisions of this part. The agency shall provide necessary facilities to the commission.

(d) Commencing in 1986, by January 31st of each year, the Health and Welfare Agency shall propose to the Legislature and the Governor legislation necessary to meet the limits on public assistance programs imposed by Chapter 4 (commencing with Section 10330)

10321. The commission shall:

(a) Annually conduct a survey of the scope, state per capita expenditures for public assistance benefits, and for state and county public assistance program administrative costs provided in California and in the 49 other states, to be completed no later than December 31st of each year.

(b) By January 31st of each year, present to the Legislature and the Governor

a profile of the public assistance eligibility criteria utilized in the 49 other states.

(c) By January 31st of each year, present to the Legislature and the Governor a statement of the average scope of public assistance programs provided in the 49 other states.

(d) By January 31st of each year, present to the Legislature and the Governor a statement of the average state per capita expenditure for public assistance benefits provided to persons eligible for these benefits in the 49 other states.

(e) By January 31st of each year, present to the Legislature and the Governor a statement of the average state per capita expenditure for state and county administrative costs incurred in administering public assistance programs in the 49 other states.

(f) By January 31st of each year, present to the Legislature and the Governor recommendations for statutory revisions necessary to achieve delivery of public assistance benefits in California at a level consistent with the provisions of Section 10330.

(g) Not later than two years after the effective date of this act, report to the Legislature and the Governor on: (1) the economic and social effects of existing public assistance programs; (2) the areas where the policies of existing programs are deficient or inconsistent with the public purpose to be served; (3) the nature and scope of services which are an appropriate part of a comprehensive and integrated public assistance program; and (4) administrative organization, methods of administration, governmental cost sharing, and control procedures which will be effective in conserving human resources and public funds in the delivery of public assistance benefits.

(h) The commission shall, in carrying out the provisions of this section, use the best available statistical data. The commission may, where necessary, make estimates concerning the information required to be obtained pursuant to this section.

#### CHAPTER 4. BENEFIT LEVELS

10330. (a) Notwithstanding any other provision of law, on July 1, 1986, and on July 1 of each fiscal year thereafter:

(1) Expenditures for benefits under each public assistance program shall not exceed the national average state per capita expenditures, excluding California, for benefits under that public assistance program plus 10 percent of that average, as determined by the commission. Subject to the provisions of subdivision (b) aid grant and service levels for public assistance programs shall be established at levels that comply with the provisions of this paragraph

(2) State and county administrative costs incurred in administering public assistance programs shall not exceed the national average state per capita expenditure, excluding California, for these administrative costs plus 10 percent of that average, as determined by the commission.

(b) Notwithstanding the provisions of Section 10350, this section shall not be construed so as to prevent expenditures, pursuant to a bill enacted by a majority vote of the membership of each house of the Legislature, for provision of benefits under any public assistance program from exceeding the national average state per capita expenditure, excluding California, for that public assistance program, plus 10 percent of that average, so long as total expenditures for public assistance benefits do not exceed the national average state per capita expenditure, excluding California, plus 10 percent of that average for all public assistance programs.

(c) This section shall not affect minimum basic standards of adequate care established under the provisions of Section 11452

10331. In any year that the averages established for public assistance programs result in a reduction of necessary General Fund expenditures for these programs, all or any portion of the funds constituting the difference between prior and

*current expenditure levels may be used to improve the scope and quality of any public assistance program providing services exclusively to aged, blind, or disabled persons, including programs exempted from the provisions of this part pursuant to subdivision (b) of Section 10306.*

#### CHAPTER 5. FISCAL PROVISIONS

*10340. The sum of two hundred fifty thousand dollars (\$250,000) is annually appropriated from the General Fund to the California Public Assistance Commission to be used in carrying out the functions of the commission.*

#### CHAPTER 6. MISCELLANEOUS

*10350. Except as provided in subdivision (b) of Section 10330, this part may be amended or repealed only by the procedures set forth in this section. If any portion of subdivision (a) of this section is declared invalid, then subdivision (b) shall be the exclusive means of amending or repealing this part.*

*(a) This part may be amended by statute, passed in each house by rollcall vote entered in the journal, two-thirds of the membership concurring and signed by the Governor, if, at least 20 days prior to passage in each house, the bill in its final form has been delivered to the commission for distribution to the news media and to every person who has requested the commission to send copies of such bills to him or her.*

*(b) This part also may be amended or repealed by statute that becomes effective only when approved by the electors.*

*10351. If any act of the Legislature enacted prior to the effective date of this act conflicts with the provisions of this part, this part shall prevail.*

*10352. If any provision of this part or the application thereof to any person or circumstance is held invalid, the invalidity shall not affect other provisions or applications of this part which can be given effect without the invalid provision or application, and to this end the provisions of this part are severable.*

*10353. Except as provided in Chapter 4, commencing with Section 10330, this part shall become effective on February 1, 1985.*
